# NOVAVAX COVID-19 VACCINE AVAILABLE

Health Canada approved Novavax for anyone 12+*

Novavax is a protein subunit vaccine similar to the flu vaccine

It uses a protein to teach our body to make antibodies that fight COVID-19. It doesn't use mRNA

2 doses & a booster recommended for protection against serious illness

mRNA vaccines still offer the best protection

*Approved as a primary series for everyone 12+ and as a booster for 18+ only
