## Watermain Replacement on Densgrove Road and Road Resurfacing on Delawana Drive, Millmere Drive and Cardy Place

Contract: 22ECS-LU-09SU

Start Date: July 2022 End Date: December 2022

*\*Timeline is subject to change.*

The City of Toronto plans to replace the watermain and the City-owned portion of substandard water services on Densgrove Road.

The City is also planning to resurface Delawana Drive, Millmere Drive and Cardy Place. Our inspection of the road shows that it needs repaving and sections of damaged curb and sidewalk need to be replaced to bring them to a state of good repair.

This project is part of the Council-approved 2022 Capital Works Program to renew aging City roads and sidewalk for current and future needs.

### IMPORTANT INFORMATION ABOUT COVID-19 AND CONSTRUCTION WORK IN TORONTO

During construction, the contractor is responsible for the Health & Safety on site under the Ontario Occupational Health and Safety Act and is expected to implement COVID-19 mitigation practices. For more information on the City's response to COVID-19 please visit [toronto.ca/covid-19](https://toronto.ca/covid-19).

### IMPORTANT INFORMATION ABOUT LEAD WATER SERVICES

If you live on Densgrove Road in a house that was built before the mid-1950s, your water service may be made of lead. Please read the attached fact sheet with important information about the risks of lead in drinking water, especially if someone in your house is pregnant, there are children under six years old, or there is an infant drinking formula made using tap water.

### MAP OF WORK AREA

## WHAT TO EXPECT BEFORE CONSTRUCTION

- Work crews will mark sidewalks and curbs requiring replacement and the locations of underground utilities, such as gas, water and cable so that the construction work does not interfere with these utilities.
- Affected properties will receive a Construction Notice approximately two weeks before work begins with more information about the work.
- The City will not be responsible for damage to any privately owned items on City property.

	<p><b>Accessible Accommodation:</b> The City's contractor must ensure safe and accessible walkways and entryways are maintained for everyone during construction. Any temporary access disruptions will be communicated as soon as possible. If you experience a disruption, have a specific access need or related accommodation request, contact the <b>Field Ambassador</b> listed below.</p>
	<p><b>Access to Your Home:</b> The City-hired contractor may need access to the interior and exterior of your home to complete a pre-construction condition survey. Affected properties will receive a request to schedule a time to complete the pre-construction condition survey. Although participation is voluntary, the pre-construction survey results may be useful to confirm claims for potential damage caused by City construction.</p>
	<p><b>Important information for owners of sprinkler systems / heated driveways and private landscaping features.</b> Property owners should remove items located within City property limits (boulevard) to avoid damage.</p> <p>This includes items such as landscaping (plants and pavers), decorative objects, sprinkler systems or heated driveways. If you have a sprinkler system or heated driveway, please contact the <b>Field Ambassador</b> listed below.</p>
	<p><b>Substandard Water Service Replacement:</b> Please take the time to read the attached fact sheet carefully as it contains important information on lead in drinking water and how to prepare for replacement. <b>First, you need to find out if your water service is lead</b> – a licensed plumber can help you with this. If it is lead, the City of Toronto encourages you to replace it. We recommend you obtain several quotes. <b>PLEASE NOTE:</b> The City is not able to get involved in any contract to have work done on private property. Property owners are responsible for ensuring contractors do not interfere with the work being done on City property.
