## City Infrastructure Works on Donino Avenue, Old Yonge Street, Brookfield Road and Parkette

**Contract: 22ECS-TI-05LR**  
**Start Date: September 2022 End Date: July 2023**  
**Winter Break: December 2022 to March, 2022**  
*\*Timeline is subject to change.*

The City of Toronto will complete infrastructure improvements on Donino Avenue, Old Yonge Street, Brookfield Road and Brookfield Parkette (See map below). Details of the works and locations are described below.

Street / Location	Road Reconstruction in 2023	Storm Sewer Replacement in 2022	Sidewalk Installation in 2023	Watermain Replacement in 2022	Water Service Replacement in 2022
Donino Avenue from Mill Street to Bridge	✓	✓	✓	n/a	n/a
Old Yonge Street from Mill Street to 86.8m of Mill Street	✓	✓	n/a	n/a	n/a
Brookfield Road from Old Yonge Street to Plymbridge Crescent	✓	✓	n/a	✓	✓
Brookfield Parkette from Plymbridge Crescent to Brookfield Road	n/a	✓	n/a	n/a	n/a

The storm sewer is an underground pipe designed to collect stormwater and melting snow, and release it into a nearby creek or river. The water service is the underground pipe that brings water to your water meter and is owned by you and by the City. The part you own is from your house to the end of your property, the part the City owns is from the end of your property to the watermain.

As part of Road Reconstruction on Donino Avenue, 1.8 meter wide concrete sidewalk will be installed on the west side from Mill Street to the Bridge.

As part of Road Reconstruction on Brookfield Road, 1.5 meter wide permeable paver walkway will be installed on the south side along the Brookfield Parkette.

This project is part of the Council-approved 2022 Capital Works Program to renew our aging infrastructure and avoid sewer collapse.

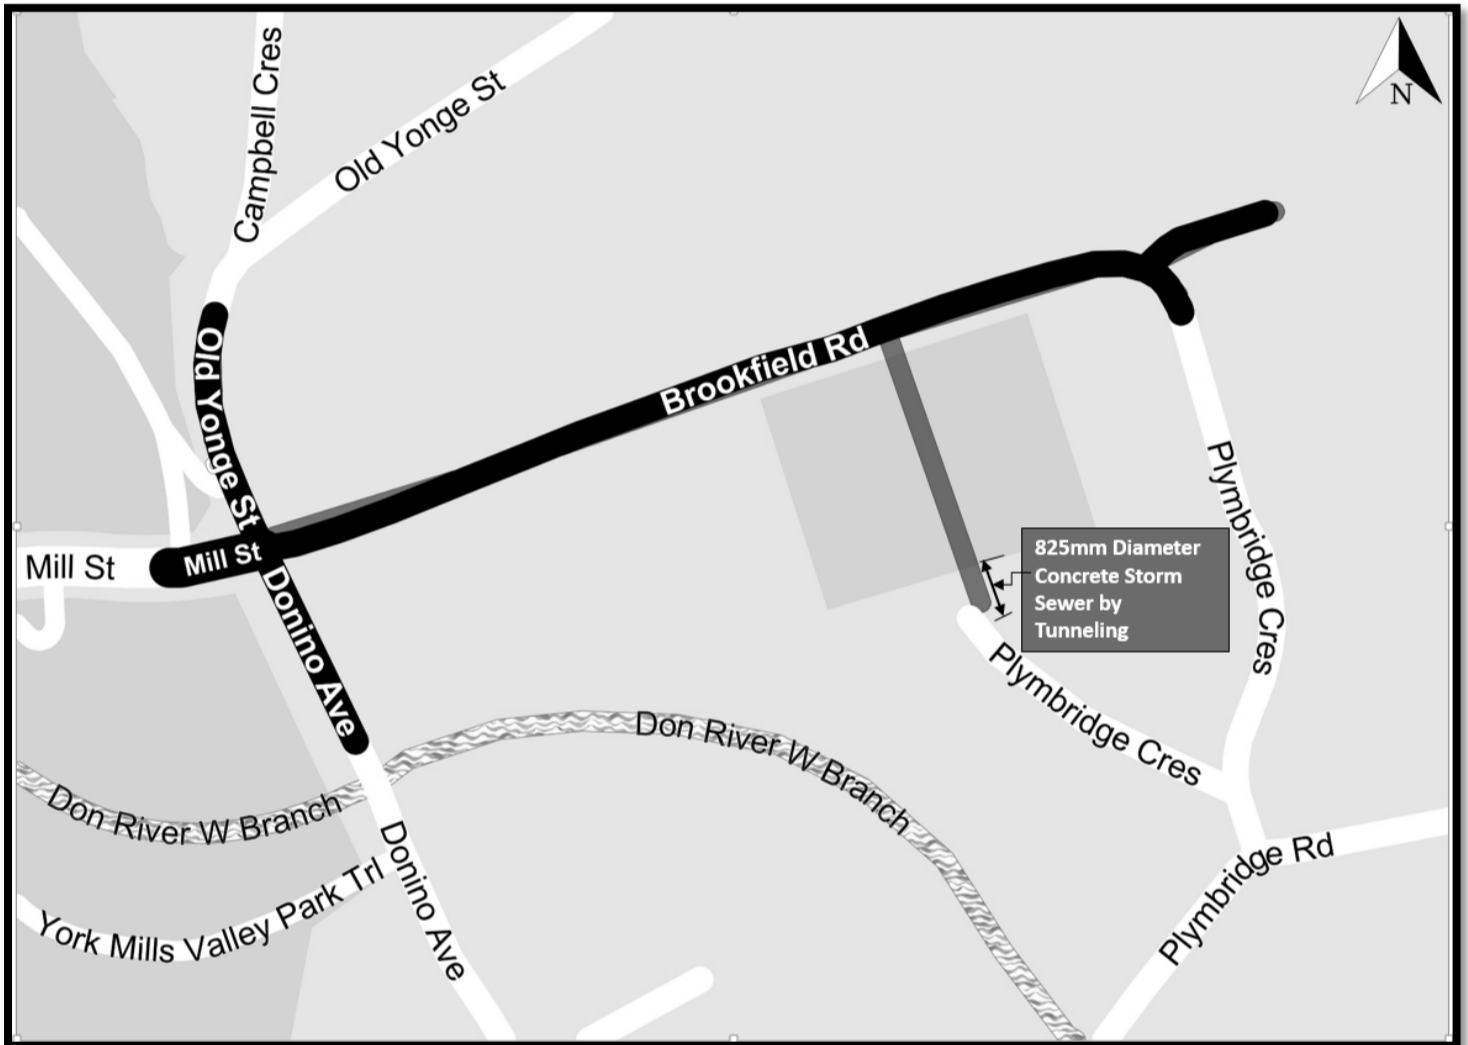

## IMPORTANT INFORMATION ABOUT COVID-19 AND CONSTRUCTION WORK IN TORONTO

During construction, the contractor is responsible for the Health & Safety on site under the Ontario Occupational Health and Safety Act and is expected to implement COVID-19 mitigation practices. For more information on the City's response to COVID-19 please visit [toronto.ca/covid-19](https://toronto.ca/covid-19).

## IMPORTANT INFORMATION ABOUT LEAD WATER SERVICES

If you live on Brookfield Road in a house that was built before the mid-1950s, your water service may be made of lead. Please read the attached fact sheet with important information about the risks of lead in drinking water, especially if someone in your house is pregnant, there are children under six years old, or there is an infant drinking formula made using tap water.

## MAP OF WORK AREA

## WHAT TO EXPECT BEFORE CONSTRUCTION

- Work crews will mark the locations of underground utilities, such as gas, water and cable so that the construction work does not interfere with these utilities.
- Affected properties will receive a Construction Notice approximately two weeks before work begins with more information about the work.
- The City will not be responsible for damage to any privately owned items on City property.

**Accessible Accommodation:** The City's contractor must ensure safe and accessible walkways and entryways are maintained for everyone during construction. Any temporary access disruptions will be communicated as soon as possible. If you experience a disruption, have a specific access need or related accommodation request, contact the Project Manager listed below.

	<p><b>Access to Your Home:</b> The City-hired contractor may need access to the interior and exterior of your home to complete a pre-construction condition survey. Affected properties will receive a request to schedule a time to complete the pre-construction condition survey. Although participation is voluntary, the pre-construction survey results may be useful to confirm claims for potential damage caused by City construction.</p>
	<p><b>Important information for owners of sprinkler systems / heated driveways and private landscaping features.</b> Property owners should remove items located within City property limits (boulevard) to avoid damage.</p> <p>This includes items such as landscaping (plants and pavers), decorative objects, sprinkler systems or heated driveways. If you have a sprinkler system or heated driveway, please contact the Project Manager listed below.</p>
	<p><b>Substandard Water Service Replacement:</b> Please take the time to read the attached fact sheet carefully as it contains important information on lead in drinking water and how to prepare for replacement. <b>First, you need to find out if your water service is lead</b> – a licensed plumber can help you with this. If it is lead, the City of Toronto encourages you to replace it. We recommend you obtain several quotes. <b>PLEASE NOTE:</b> The City is not able to get involved in any contract to have work done on private property. Property owners are responsible for ensuring contractors do not interfere with the work being done on City property. Learn more at <a href="http://www.toronto.ca/leadpipes">www.toronto.ca/leadpipes</a></p>

## NEED MORE INFORMATION?

If you have questions about the upcoming work, please contact us.
