

## If you haven't received a fall booster, it's not too late to get it now:

- ✓ Residents 5+ can get a booster 6 months after a COVID-19 vaccine or infection or 3 months if at high risk of severe illness from COVID-19
- ✓ Pfizer bivalent is available for people 5+ & Moderna bivalent for 18+

### BOTH BIVALENT BOOSTERS:

- ✓ Can provide strong protection against the highly contagious Omicron variants.
- ✓ Add an extra layer of protection against the increase of COVID-19 this fall & winter.
