Basement Flooding Protection Program Sanitary and Storm Sewer Upgrades on Roywood Drive and Other Local Roads

Contract: 20ECS-LU-07FP

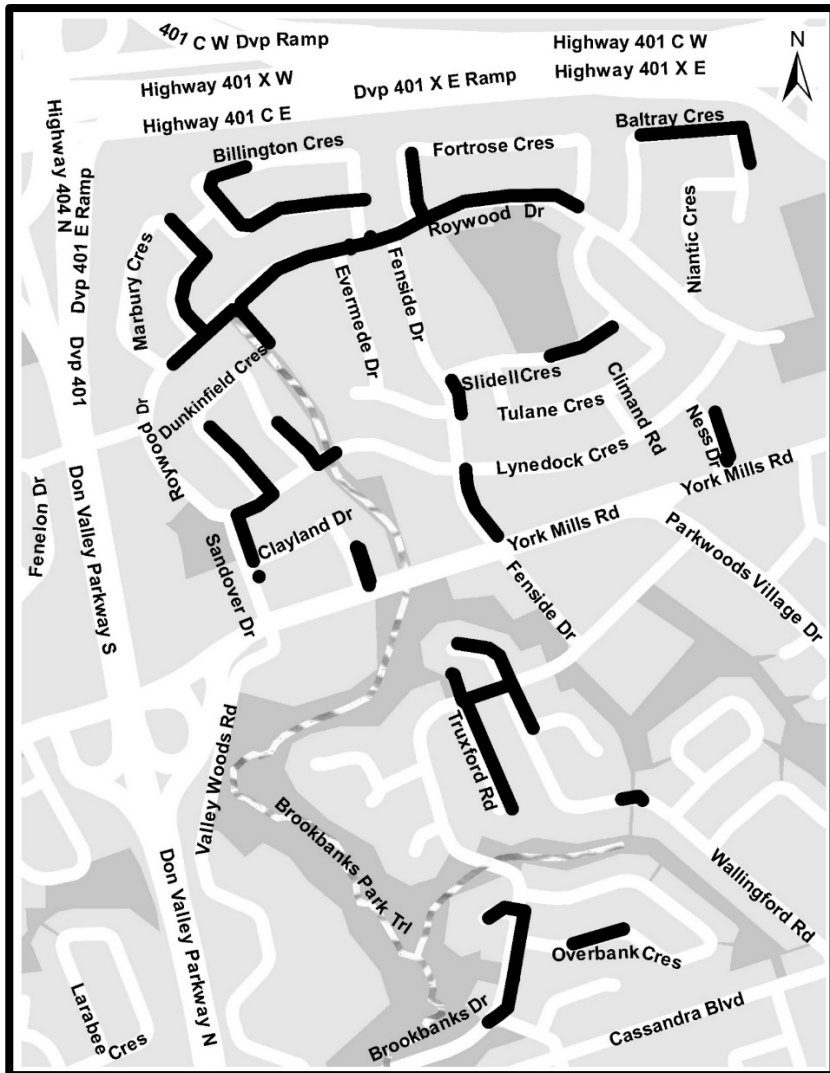

Expected Start Date: September 20, 2021 Expected End Date: June 2024

**Timeline is subject to change.*

This notice provides an update on the ongoing sanitary sewer and watermain system upgrades on Roywood Drive and other local roads. Work on this project is currently on schedule to be completed in the summer of 2024. We know this project has an impact to all residents along Roywood Drive and the other surrounding streets. We sympathize and appreciate your patience with the dust, noise, fencing and other inconveniences.

Please find information below that outline completed and remaining work for this contract. Thank you for your ongoing patience while we complete this important work.

WHAT TO EXPECT DURING CONSTRUCTION

- You may experience dust, noise and other inconveniences. The City will make efforts to reduce the impacts. We appreciate your patience.
- The City will not be responsible for damage to any privately owned items on City property.

| | |
|---|--|
|  | <p>Work Hours: Work will take place from 7 a.m. to 7 p.m., Monday to Friday, with work after hours and on weekends as required.</p> |
|  | <p>Traffic Management: Road users should expect delays and increased traffic on nearby main and side streets. Motorists are reminded that bicycles and cars will be sharing the lane. When driving, please be mindful of vulnerable road users. Efforts have been made to manage traffic in the area for the safety of workers, road users and residents.</p> <ul style="list-style-type: none"> Traffic on the identified streets on the map will occasionally be reduced to one lane, and road closures may be required during working hours where active sewer/watermain construction is taking place. Signs will be installed at the entrance of any roads requiring closures. The contractor will have flag persons to ensure safe traffic on the street while construction is proceeding. We encourage residents to avoid entering streets where "Road Closed Local Traffic Only" signs are posted, unless they reside on that street, in which case they may need to turn back and go around depending on the progress of the work in relation to the location of their home. |
|  | <p>Physical Distancing: There are times when contractors need to communicate with homeowners about what is happening on-site. This could be about driveway access, water shut offs, pre-construction inspections, and site restoration work (landscaping, installing pavers etc.). Contractor's staff will be identifiable by their high-visibility clothing and will maintain physical distancing.</p> |
|  | <p>Road and Sidewalk Access: In order to complete the work in a safe manner, there will be road and sidewalk restrictions within the construction work zone. Access for emergency vehicles will be maintained at all times.</p> <p>Driveway Access: The contractor will notify you of any temporary restrictions to your driveway access. If your property has two entrances, one entrance will be kept open at all times.</p> |
|  | <p>Pedestrians: The work may require temporary sidewalk restrictions, however any necessary sidewalk closures will alternate in each direction to ensure pedestrian access is maintained during construction.</p> |
|  | <p>Parking: This project will affect on-street parking. Parking in the active work zone is not permitted as space is needed for construction equipment and materials. If your parked vehicle affects construction work, it will be relocated with no charge to the owner. Please call 416-808-2222 for its location.</p> |

| | |
|---|---|
|  | <p>Parking Violation Notice: If parking enforcement is called to a street, officers must issue a yellow parking violation notice (ticket) to vehicles in violation of parking by-laws. If you receive a yellow notice during this construction work, do the following within 15 days of the notice date:</p> <ol style="list-style-type: none"> 1) Contact the site inspector or person listed on the Construction Notice and give them the yellow notice number. 2) Dispute the parking violation notice online or in person following the process listed on the back of the parking violation notice. <p>You may use this construction notice as part of the explanation of why the violation should be cancelled. Please note: violation notices cannot be cancelled if vehicles are parked in illegal parking spots (i.e. in front of a fire hydrant or in no parking zones). In an effort to reduce ticketing due to construction, please exercise patience with neighbours who are experiencing construction and may need to temporarily park on your street.</p> |
|  | <p>Accessible Accommodation: The City's contractor must ensure safe and accessible walkways and entryways are maintained for everyone during construction. Any temporary access disruptions will be communicated as soon as possible. If you experience a disruption, have a specific access need or related accommodation request, inform the contact listed below.</p> |

NEED MORE INFORMATION?

If you have questions about this construction project, please contact staff listed below. If you need to speak with staff on the construction site – please ask for the site inspector, respect physical distancing and wear a mask.
