Application Submission Tool updates and improvements

The C2K Customer Experience and Technology team has released its final update of the year to the Application Submission Tool (AST). This release includes various industry-requested features, including:

- Identification of affordable housing applications that are part of the Priority Development Review Stream (PDRS), which will enable applicants to notify the City that the application has already been approved for inclusion in the PDRS by the Housing Secretariat
- The addition of previous/next buttons at the top and bottom of AST pages that allows users to more easily toggle between screens.

The team is now focusing its attention on AST updates related to the implementation of mandatory Pre-Application Consultation in April 2023. This will include adding a meeting request feature.

Your feedback regarding this newsletter requested

We would love to know what you think about this newsletter. Do you find it useful? Is there anything else we could include that would be helpful to you? Please take a few minutes to fill out this brief, confidential [survey](#). We want this newsletter to be of value to you. The survey closes on December 5. Thank you in advance for sharing your feedback!

C2K at RESCON's Housing Supply Summit 2.0

C2K's Kris Hornburg, Director, Development Process & Performance, took part in a panel called ***Outstanding Housing Reforms Needed to Increase Supply***. The panel is available for viewing on RESCON's [website](#).
