Infrastructure Improvements on College Street from Manning Avenue to Bay Street

Contract: 22ECS-TI-09SP

Start Date: September 16, 2022 NEW End date: Spring 2023

This notice provides an update on the infrastructure improvement projects being carried out by the City of Toronto and the Toronto Transit Commission (TTC) on College Street from Manning Avenue to Bay Street.

Completion of streetcar track replacement between Bathurst Street to Bay Street is expected to be complete by the end of December. The City's contractor will continue to complete minor restoration work in the weeks to follow.

Travel lanes on College Street will re-open to through traffic after the completion of the streetcar track work.

In spring 2023, the contractor will return to complete cycle track improvements with the installation of an elevated cycle track between Manning Avenue and Spadina Avenue, and upgrades to the existing bike lanes between Spadina Avenue and Bay Street. This work is expected to take approximately three months to complete. An updated notice with dates will be mailed before work begins.

Based on the current schedule, TTC is planning the resumption of regular 506 Carlton streetcar service in January 2023. Further updates will be provided online ttc.ca.
