## Watermain Replacement and Storm Sewer Replacement on Phlox Avenue

**Contract: 22ECS-LU-02SU**

**Start Date: September 12, 2022 - End Date-September 2023**

**Storm Sewer Installation End Date: September,2022**

**Watermain Installation End Date: December 23, 2022**

**Permanent Restoration: Spring 2023**

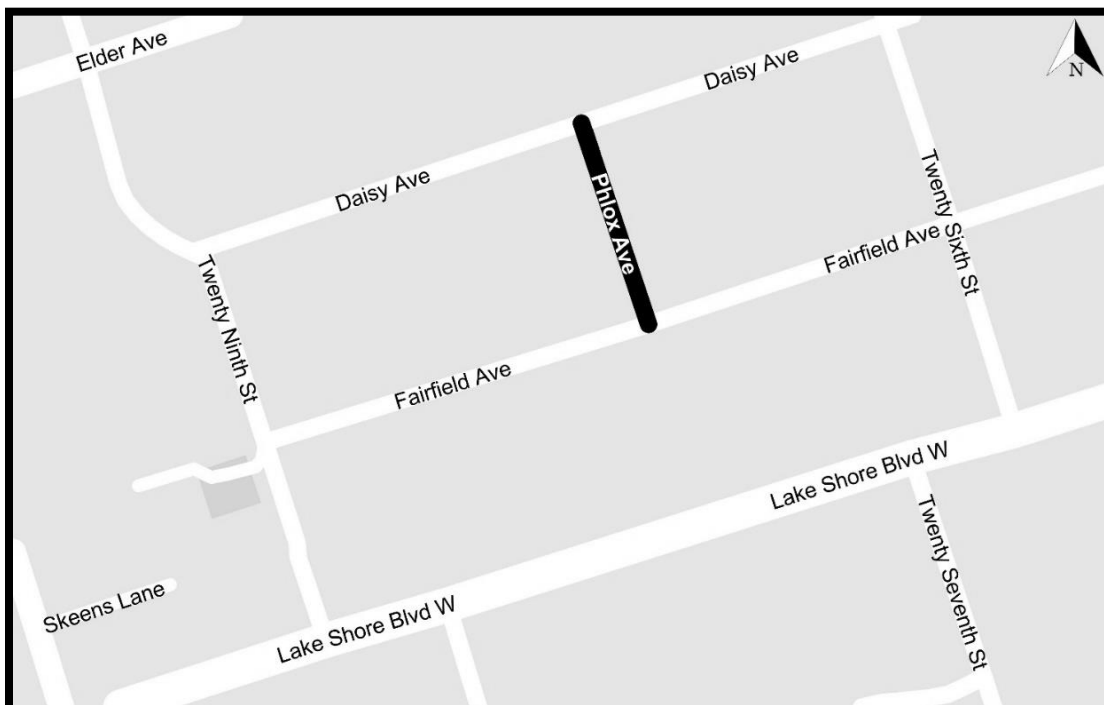

*\*Timeline is subject to change.*

The City of Toronto's project to replace the watermain and the City-owned portion of substandard water services and storm sewer on Phlox Avenue is almost complete. Due to ground and weather conditions, the contractor will be implementing a winter shutdown. This year's construction work wrapped up on December 23, 2022.

Prior to leaving the site, the contractor permanently restored driveways. The contractor temporarily restored sidewalk/curb and the roadway with temporary asphalt, and temporarily restored lawn areas with soil. Once weather conditions are favourable, the contractor will return in the spring of 2023 to permanently restore sidewalk/curb, sod, and roadway. A construction update notice will be issued before work restarts.

If you have any concerns regarding the condition of the temporary restoration during the winter shutdown, please contact the Field Ambassador listed below.

### MAP OF WORK AREA

The contractor has:

- Installed the new storm sewer;
- Installed new catch basins and leads;
- Installed the new watermain;
- Transferred water services to the new main;
- Replaced any water service pipes that did not meet City standards from the watermain to the private property line; and
- Completed driveway restoration;
- Temporarily restored areas affected by the storm and watermain installation

## REMAINING WORK

- In the spring of 2023, the contractor will permanently restore all areas affected by watermain and storm sewer installation.
