

Yorkdale Transportation Master Plan

Municipal Class Environmental Assessment Notice of Study Completion

The City of Toronto has completed the Yorkdale Transportation Master Plan (TMP) with the purpose of supporting the significant plans for growth and development both on the Yorkdale Shopping Centre lands as well as in the surrounding area. The TMP study followed the Municipal Class Environmental Assessment (EA) process.

The TMP identifies transportation infrastructure, programs and policies that will support the growth identified in the Yorkdale Shopping Centre Block Master Plan and builds upon previously approved secondary plans in the area including the Dufferin Street Secondary Plan and the Lawrence Allen Secondary Plan.

Some of the pedestrian, cycling, transit and road intersection improvement projects identified in the TMP are Schedule 'A+' or 'B' which may proceed to detailed design and construction at any time. Several projects may be delivered through private development. Other infrastructure projects identified in the TMP are Schedule 'C' projects and require additional study and consultation following the completion of the TMP to meet the requirements of the Environmental Assessment process.

Opportunities for Review

The TMP will be placed on public record for a **30-day review period starting January 19 and ending February 17, 2023.**
