

This document is designated by the City of Toronto for use by the health care sector as a Pollution Prevention (P2) Plan, pursuant to Municipal Code Chapter 681. A completed Plan must be submitted to Toronto Water every six years and a copy kept at the facility for inspection by the City. If you would like a copy of this form in an alternate accessible format, please contact 311 (www.toronto.ca/311).

1. Facility Information (Required)								
Facility Name	Address (Street Number. Name, Suite/Unit							
	Number, City, Province, Postal Code)							
Name (First, Last) of Senior Official Responsible for the P2 Plan	Position Title							
Business Telephone Number Business Fax Number	Business Email							
NAICS Code (Check all that are applicable)								
622110 General Medical and Surgical Hospitals								
☐ 622210 Psychiatric and Substance Abuse Hospitals								
☐ 622310 Specialty (except Psychiatric and Substance Abu	se) Hospitals							
621511 Medical Laboratories								
Ontario Waste Generator Number	Waste Classes							
2. Management Policy Statement (A sample management policy statement is attached. The facility can also develop its own Management Policy State	e sample policy can be adopted as it is or can be modified. The ement.)

9. Declaration

As the senior management official at this facility, I

represent and declare that this Pollution Prevention (P2) Plan and all information and supporting documentation contained in or with this Plan comply with Chapter 681 and are accurate and complete to the best of my knowledge. I undertake to comply with this Plan and make it readily available for inspection at the subject premises by the representatives of the City of Toronto.

SAMPLE MANAGEMENT POLICY

		is a health care	community ded	dicated to ex	cellence in the	ne care
(Fa	cility Name)		-			
of our patients.	This dedication to excelle	nce is a manner	that minimizes	undue risk a	and adverse	environm

of our patients. This dedication to excellence is a manner that minimizes undue risk and adverse environmental impacts on human health and the natural environment.

We commit ourselves to striving for continual improvement of our environmental performance and the prevention of pollution through the reduction of subject pollutants. In doing so the AGH will at a minimum comply with, or when possible exceed all legal requirements through the application of sustainable development practices.

We will reduce and or eliminate the discharge of subject pollutants where possible through development of a pollution prevention plan. Whenever possible we will reuse and recycle materials in an environmentally responsible manner. Where it is not possible to reuse or recycle materials, we will ensure that the materials are disposed of in a manner, which is compliant with all relevant laws.

The Environmental Manager will be responsible for leading the in-house Environmental Committee in the pollution prevention mandate. All employees will be empowered to develop pollution prevention solutions. Communication on the success of the pollution prevention program will be communicated to all employees and interested external parties.
