SUBJECT: Vaccine Ancillary Supplies Distribution Ending

Dear Health Care Providers,

As the provision of COVID-19 vaccines continues to be incorporated into routine vaccination programs, the Ontario Ministry of Health will no longer be providing vaccine ancillary supplies (VAS) to Toronto Public Health (TPH) for the provision of COVID-19 vaccines in TPH Community Channel (Primary Care Providers).

When current stock of VAS has depleted, TPH will not be able to continue including VAS with orders of COVID-19 vaccines. We anticipate this will occur in the next 1-2 months.

ACTION: Consider obtaining vaccine ancillary supplies from a private vendor, as is the procedure with other routine vaccines.

Please let us know if you have any questions.

Sincerely,

COVID-19 Vaccination Allocation & Distribution Team
