Watermain cleaning and relining on your street

Contract: 21TW-CTS-02CWD-Phase3

Start date: April 3, 2023

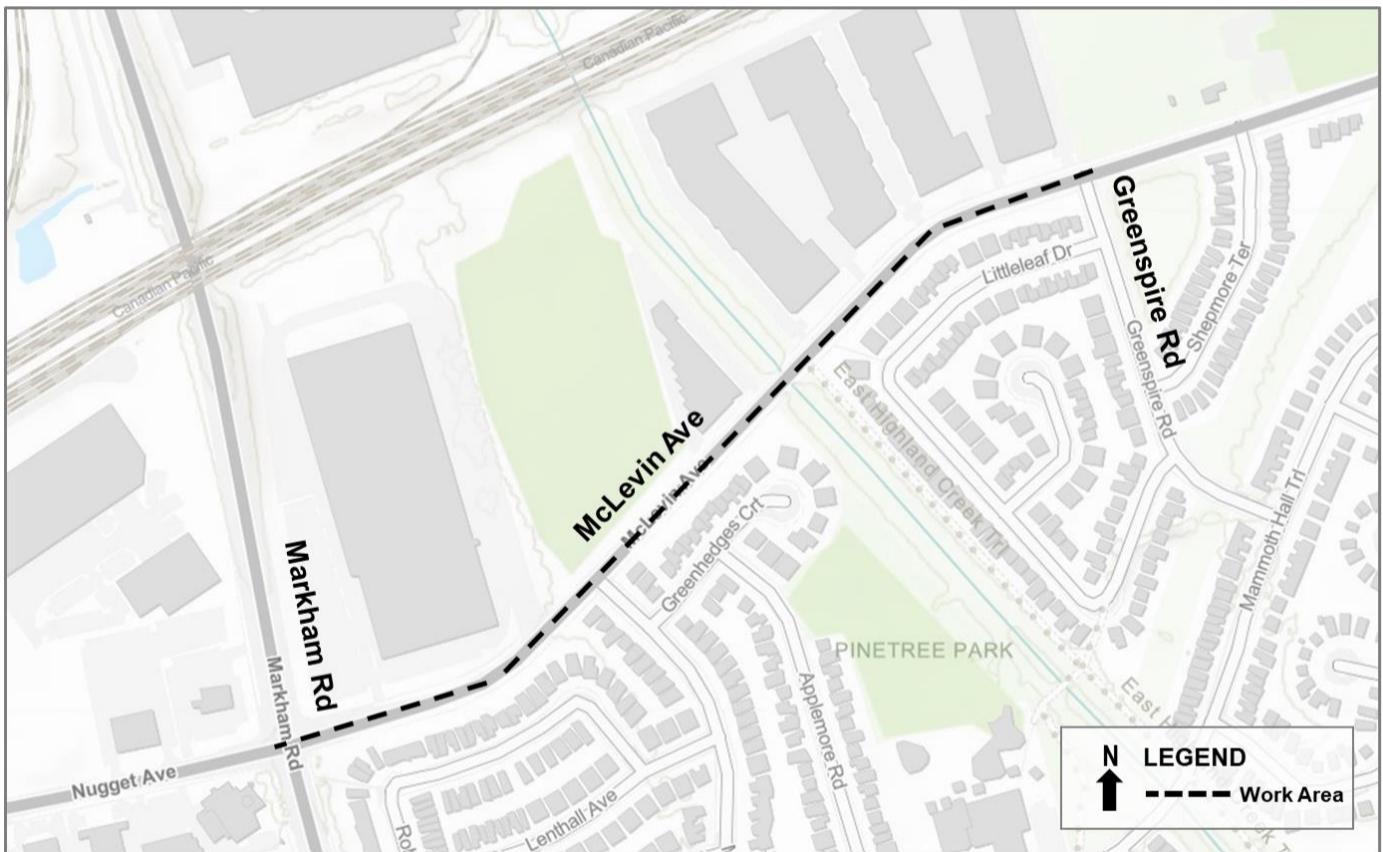

End date: May 31, 2023

**Timeline is subject to change.*

The City of Toronto will be cleaning and relining the watermain in your area starting in April. Work will take place on **McLevin Avenue** from **Markham Road** to **Greenspire Road**. Please see a map of the work area below. This project is part of the Council-approved Capital Works Program to renew Toronto's aging infrastructure, improve water distribution and reduce the risk of watermain breaks.

Impacts on properties are expected, including planned water shut-offs, excavation pits and limited parking. For the duration of the construction, affected properties will receive water via a temporary bypass system.

MAP OF WORK AREA

During this process, the City will also replace the City-owned portion of any substandard water service pipes.

The water service is the underground pipe that brings water from the watermain to a property's water meter. The City owns the portion of pipe from the municipal watermain to the property line. Property owners own the portion of pipe from their property line to the property's water meter.

WORK DETAILS

In the first few weeks, the City's contractor will move equipment on-site and prepare the work area before construction begins. Construction crews will then:

- excavate pits in the road to access the watermain
- install a temporary water supply system and attach your house/building to the supply
- clean and structurally re-line the existing watermain
- replace any City-owned water service pipes that do not meet City standards (from the watermain to the private property line)
- remove the temporary water supply and restore all work areas with asphalt, concrete or grass.

WHAT TO EXPECT DURING CONSTRUCTION

- You may experience dust, noise and other inconveniences. The City will make efforts to reduce the impacts. We appreciate your patience.
- Property owners should remove items such as landscaping and/or decorative objects located within City property limits (boulevard). If you have a sprinkler system within the boulevard, please contact the Field Ambassador (see contact information at the bottom of this notice).
- The City will not be responsible for damage to any privately-owned items on City property.

	<p>Work hours: Work will take place from 7 a.m. to 7 p.m., Monday to Friday, with work after hours and on weekends as required and in accordance with the City's Noise Bylaw. Night work may be required as part of this project. You will be notified in advance of any changes to work hours.</p>
	<p>Construction noise: You may experience intermittent noise and vibration during construction (from vacuum trucks, power generators, air compressors, etc.). All work will comply with the City of Toronto's Noise Bylaw.</p>
	<p>Access to your house/building: The City-hired contractor may need access to your house/building to complete a pre-construction survey and install shut-off valves. The contractor will deliver a pre-construction survey request to schedule a time to complete the survey.</p> <p>The contractor will not show up asking for entry without prior notice. If you have questions or concerns regarding the identity of the contractor or contractor worker, please contact the Field Ambassador (contact information at the bottom of this notice).</p>
	<p>Customers in industrial, commercial, institutional and multi-residential buildings: There will be short-term water service disruptions for the connection and disconnection of the temporary water supply. In all cases, the City's contractor will discuss this matter with the property manager and/or superintendent in advance. The temporary water disruption will be coordinated at a time that best suits the needs of the property (for example, overnight to minimize impacts) and a notice will be provided 24 hours in advance.</p> <p>Please contact your property manager, in addition to the Field Ambassador (contact information at the bottom of this notice) or 311 for further project updates.</p>
	<p>Water service disruptions: From time-to-time, the water supply to your property will need to be shut off to complete construction. The contractor will provide at least 24-hour advance notice for all planned shut-offs. Throughout the work, it is recommended that you temporarily disconnect any water treatment systems (i.e., softeners or filters), water-cooled air conditioners or similar plumbing fixtures.</p> <p>Automatic lawn sprinkler systems may also be affected, so, you may need to water manually. If you did not receive advance notice and your water was turned off, an emergency water shut-off may have been necessary to complete the work.</p>
	<p>Restoration: The construction work area will be restored with sod and/or asphalt where required. Interlocking bricks, flagstone on a granular base, or other similar features that are removed from public and private property during construction will be replaced. Lawn seeding and/or laying of sod will be done as needed during ideal growing seasons only - in the spring (April to June) and fall (September to October). Permanent restoration of the curb and sidewalk will take place within 18 to 24 months.</p>
	<p>Road and sidewalk access: To safely complete the work, there will be road and sidewalk restrictions within the construction work zone. Access for emergency vehicles will be maintained at all times.</p> <p>Driveway access: The contractor will notify you of any temporary restrictions to your driveway access. If your property has two entrances, one entrance will be kept accessible at all times.</p>

	<p>Traffic management: Efforts have been made to manage traffic in the area for the safety of workers, road users and residents. Road users should expect delays and increased traffic on nearby main and side streets.</p>
	<p>Accessible accommodation: The City's contractor must ensure safe and accessible walkways and entryways are maintained for everyone during construction. Any temporary access disruptions will be communicated as soon as possible. If you experience a disruption, have a specific access need or related accommodation request, contact the Field Ambassador listed below.</p>

Harassment at City of Toronto construction sites is not tolerated. If you would like to make a complaint, please call 311.
