

Outbreak Preparedness Toolkit

Time Required: 25-30 min

Target Audience: Health care workers at the facility.

Introduction

The following Game Show PowerPoint activities will test your knowledge on Influenza and Infection Prevention and Control (IPAC) practices. Let's get prepared!

Objectives

- Review key concepts about Influenza and IPAC Practices
- Facilitate discussions and critical thinking about these topics

Instructions

See below the two different PowerPoints (Influenza or IPAC). View the PowerPoint in presentation mode to enable to interactive animations and sound effects. The speaker notes will guide the facilitator through the gameshow activity.

Note: To obtain the Influenza and IPAC Game Show PowerPoints please contact your TPH Liaison or email LRCT@toronto.ca.

Activity

Influenza Game Show

- This activity is intended to be used as a refresher on Influenza. It covers mode of transmission, vaccination, IPAC control measures, and myths related to Influenza.

IPAC Game Show

- This activity is intended to be used as an interactive way to review IPAC fundamentals as they apply to long-term care and retirement homes.

Debrief Discussion Questions

1. Are there any additional questions that come to mind?
2. What are some other barriers or myths that facilities face that were not covered by this activity?
3. What are some ways to address the identified barriers and myths?

Feedback

Thank you for completing the activity. We want to hear your feedback. Please complete this short survey (1-2 min) so we can continue to improve the tools.
