## Infrastructure Improvements on College Street from Manning Avenue to Bay Street

Contract: 22ECS-TI-09SP

Start Date: March 2023 NEW End Date: mid-November 2023\*

*\*Dates subject to change.*

This notice provides an update on the infrastructure improvements project being carried out by the City of Toronto on College Street from Manning Avenue to Bay Street. The City now anticipates substantial completion of the project by mid-November 2023. At that point, all travel lanes will reopen, and street furniture will be re-installed.

Work is currently underway to complete the new cycle tracks on the north side of College Street between Lippincott Street to Spadina Avenue. Work crews will then undertake the final stage of work to remove and replace the asphalt surface along College Street from Manning Avenue to Bay Street.

The revised substantial completion date is due to periods of adverse weather, labour shortages and unforeseen underground conflicts, which have impacted the progress of construction work.
