Version 3.12 - Fall 2023

### SMIS Release Notes Version 3.12

The Shelter Management Information System (SMIS) is a web-based information management system used by programs across the City that provide services to individuals and families experiencing homelessness. SMIS is administered by the City's Shelter, Support and Housing Administration (SSHA) division. SMIS is primarily used by City-funded shelters, 24-hour respites, and COVID-19 temporary shelter programs to conduct client intake, admission, case management, and discharge. It is also used by service programs (e.g., Streets to Homes, Central Intake).

This set of Release Notes describes the changes that are included in the Fall 2023 SMIS enhancement, release version 3.12. All changes included in this SMIS enhancement were prioritized by the City of Toronto SMIS Steering Committee and Director Group. Combined, these changes address the highest current priority change requests in SMIS.

Please note that this document will also be available online at [Shelter Management Information System \(SMIS\) – City of Toronto](#).

## 1) Introduced an Indigenous Program toggle

Add a Y/N program administration toggle to the [program administration] screen to indicate whether a program is indigenous serving or not, The language of the label was confirmed in consultation with the Toronto Indigenous Community Advisory Board (TICAB).

This new "Indigenous Serving" field is now a toggle on the [program administration] screen:

Show Length of Homelessness	Yes ▾
Enable End of Service	No ▾
Indigenous Serving	Yes ▾
Allow Bed Request	No ▾
Allow Referral To	Yes ▾
Location Is	No ▾

## 2) Introduced an "Indigenous" Filter to the [Client Management-Refer to Bed > Include Programs of] Field

This change introduces a new **"Indigenous"** filter to the existing "Include Programs of" multi-dropdown list. This list currently includes all of the 5 sectors. The new filter will allow users to select ALL Indigenous Serving programs, to be included in the Refer To listing, with just one checkbox.

The "Include Programs of" multi-select dropdown filter, is an "OR" condition.

For example, if a user checks the "Indigenous" filter, and the Client was already defaulted with the "Co-ed" and "Women" filter checked, SMIS will list all available Co-ed, Women, plus all available indigenous (regardless of sector) programs.

The screenshot shows a 'Filter' section with the following elements:

- A checkbox labeled 'Include programs with no vacancy.' which is currently unchecked.
- A label 'Include programs of' followed by a dropdown menu showing 'Co-ed, Men, Indigenous'.
- A label 'Vacancy change in the' followed by a dropdown menu that is open, showing a list of options: 'Co-ed', 'Families', 'Men', 'Women', 'Youth', and 'Indigenous'. Each option has a checkmark to its right.
- A green button labeled 'Apply Filter / Refresh'.
- A blue button labeled 'Refer to Bed'.
- A text label 'Last update: Oct 10, 2023'.

### 3) Introduced 2 Enhancements & AODA Compliancy to the [Service Queue] Screen

This change introduces 2 enhancements & AODA Compliancy to the existing Service Queue screen.

It includes update to 2 existing column:

- Update the "**Elapsed**" column so that it displays data in the following format: XXXd XXh XXm. Currently it only displays as XXXh XXm.
- Renamed the existing "room/bed" column to "**Eligible Vacancies**"
