Sanitary forcemain replacement on your street

In October 2023, the City of Toronto distributed a Construction Notice for a sanitary forcemain replacement to take place in your neighbourhood. This project is part of the Council-approved Capital Works Program to renew aging infrastructure, reducing the risk of forcemain breaks and collapses.

The City began preliminary activities on **Albert Avenue, southeast of Cavell Avenue, on Superior Avenue, east of Lakeshore Boulevard West** and at the **Mimico Sewage Pumping Station** in November 2023. Due to site and technical constraints, the construction timeline has been updated to begin in **March 2024** and is expected to be completed by **November 2024**. Restoration work, where required, will follow in spring 2025. Please see a map of the work area below.
