Sanitary Trunk Sewer Protection in Taylor Massey Creek

Start Date: February 6, 2023

New End Date: April 30, 2024

**Timeline is subject to change.*

In January 2023, the City of Toronto notified residents of sanitary trunk sewer construction work in Taylor Massey Creek at the east end of Dawes Road.

This work was originally scheduled for completion by the end of 2023 however, several factors impacted the project completion date including, weather conditions and unexpected delays in procurement of supplies and equipment. Work is now scheduled for completion at the end of April 2024.

The sanitary trunk sewer is an underground pipe that collects wastewater from sewers and delivers it to a wastewater facility for treatment. The City of Toronto continues to work on this sanitary sewer infrastructure by reinforcing the creek bank and beds with stone, soil, and vegetation. **A map of the work area can be found on page 3 of this notice.**

This project is part of the Council-approved 2022 Capital Works Program to renew the City's aging sewer infrastructure and will extend the service life of the sanitary trunk sewer by approximately 50 years.

WORK DETAIL

- Construction is being performed by City of Toronto staff.
- The Taylor Massey Creek parking lot, east of Dawes Road, is closed to the public and used for construction staging. The parking lot located west of Dawes Road remains open.
- Crews are building an access route to the work area, as well as a temporary creek crossing to access the creek banks. Crews are also reinforcing the creek bank and beds with stone, soil and vegetation.
- Work includes creek restoration with heavy equipment operating in Taylor Massey Creek to protect buried sanitary sewers.
- The multi-use trail along Taylor Massey Creek will be open during construction. Staff will be onsite to control trail traffic when heavy equipment crosses the trail.

	Work Hours: Work will take place from 7 a.m. to 7 p.m., Monday to Friday, with work after hours and on weekends, as required and in accordance with the City's Noise Bylaw. Night work may be required as part of this project. You will be notified in advance of any changes to work hours.
	Construction Noise: You may experience intermittent noise and vibration during construction (from vacuum trucks, power generators, air compressors, etc.). All work will comply with the City of Toronto's Noise Bylaw.
	Accessible Accommodation: The City will ensure safe and accessible walkways and that entryways are maintained for everyone during construction. Any temporary access disruptions will be communicated as soon as possible. If you experience a disruption, have a specific access need or related accommodation request, contact the Field Ambassador listed below.
	Park, Trail, Sidewalk and Pedestrian Access: For the safety of workers and trail users, some sidewalk and trail use restrictions will occur. Staff will be onsite to temporarily close the trail when heavy equipment is crossing the trail. Otherwise, the trail will remain open. Temporary fencing will be erected around the work site to protect the public. Signage will be placed to advise trail users of construction.

	<p>Road Access and Parking: In order to complete work in a safe manner, there may be some minimal road restrictions on Dawes Road. The Taylor Massey Creek parking lot, east of Dawes Road, will be closed to the public and used for construction staging. The parking lot located west of Dawes Road will remain open.</p>
	<p>Restoration: The construction work area will be restored. Staff will work with the City's Parks, Forestry and Recreation division to replant native trees and restore vegetation with site appropriate landscaping. This will be done as needed during ideal growing seasons only - in the spring (April to June) and fall (September to October), and will be carried out in consultation with Toronto and Region Conservation Authority.</p>
