Road Reconstruction and Road Safety Improvements on Millwood Road, Pape Avenue and Donlands Avenue

Contract: 23ECS-RD-14SP

Start Date: Mid-April 2024 End Date: December 2024

**Timeline is subject to change.*

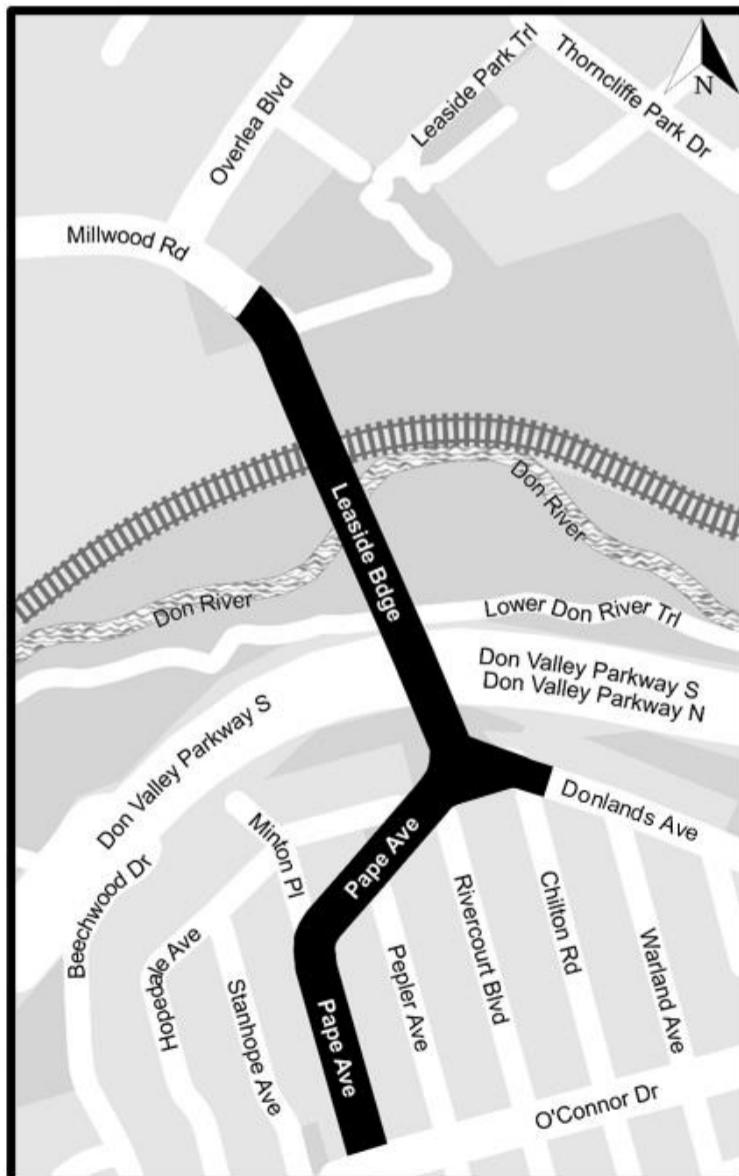

The City of Toronto is planning state-of-good-repair work on Millwood Road, Pape Avenue and Donlands Avenue due to the poor condition of the roads. This project is part of the Council-approved 2024 Capital Works Program to renew aging City roads and sidewalk for current and future needs.

As part of the upcoming work, the City will be making improvements to increase safety and connectivity for all road users. Changes include:

- New separated cycle tracks on Millwood Road (Leaside Bridge) south of Overlea Boulevard;
- New intersection design at Pape Avenue and Donlands Avenue including new pedestrian crossings, new/upgraded bikeways, wider sidewalks and relocated bus stops;
- Changes to the design of several intersections along Pape Avenue
- Road resurfacing on Pape Avenue from O'Connor Drive to south of Hopedale Avenue

Visit toronto.ca/millwood to view more construction details.

MAP OF WORK AREA

WHAT TO EXPECT BEFORE CONSTRUCTION

- Work crews will mark sidewalks and curbs requiring replacement and the locations of underground utilities, such as gas, water and cable so that the construction work does not interfere with these utilities.
- A Construction Notice will be issued by mail approximately two weeks before construction begins with more information about the work.
- The City will not be responsible for damage to any privately owned items on City property.

	<p>Access to Your Home: The City-hired contractor may need access to the interior and exterior of your home to complete a pre-construction condition survey. Affected properties will receive a request to schedule a time to complete the pre-construction condition survey. Although participation is voluntary, the pre-construction survey results may be useful to confirm claims for potential damage caused by City construction.</p>
	<p>Important information for owners of sprinkler systems / heated driveways and private landscaping features. Property owners should remove items located within City property limits (boulevard) to avoid damage.</p> <p>This includes items such as landscaping (plants and pavers), decorative objects, sprinkler systems or heated driveways. If you have a sprinkler system or heated driveway, please contact the Public Consultation Unit Staff listed below.</p>
	<p>Traffic Management: Efforts will be made to manage traffic and closures in the area for the safety of workers, road users and residents. Road users should expect delays and increased traffic on nearby main and side streets during this project. During construction, visit toronto.ca/millwood for full details and updates.</p>
	<p>Road and Sidewalk Access: To complete the work in a safe manner, there will be road and sidewalk restrictions within the construction work area. Please watch for signs directing pedestrians.</p> <p>Driveway Access: Temporary restrictions to driveway access may be required. If your property has two entrances, one entrance will be kept open at all times. Access for emergency vehicles will be maintained at all times. Affected properties will receive additional notification.</p>
	<p>Accessible Accommodation: The City's contractor must ensure safe and accessible walkways and entryways are maintained for everyone during construction. Any temporary access disruptions will be communicated as soon as possible. If you experience a disruption, have a specific access need or related accommodation request, contact the Public Consultation Unit Staff listed below.</p>
