

CLEANER AIR SPACES

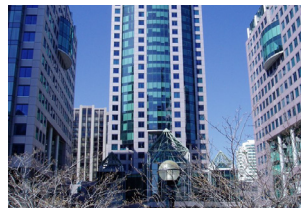

Toronto residents can enter any of the six City of Toronto Cleaner Air Spaces to seek relief during wildfire smoke events during the summer. Each space is equipped with high efficiency filtration (MERV-13 rating or higher) which help trap and reduce the small particles found in the air from wildfire smoke.

DID YOU KNOW?

Symptoms of exposure to air pollution includes irritated eyes, increased mucus production, coughing, and difficulty breathing. For more tips to protect your health from Poor Air Quality, Cleaner Air Spaces details, and more resources scan the QR code below.
