

TORONTO SHELTER BULLETIN

Bulletin No.: 2024-03

Date Issued: June 17, 2024

Bulletin Type:	General Update
Subject:	Heat Warning & Extreme Weather Standards
Bulletin:	<p>Please post this bulletin in a conspicuous area accessible to all relevant shelter staff.</p> <p>Environment and Climate Change Canada (ECCC) has issued a Heat Warning starting today (Monday, June 17), with dangerously hot and humid conditions expected through most of the week.</p> <p>As a reminder, during Heat Warnings, service providers are required to follow Extreme Weather standards outlined in Section 8.7 of the Toronto Shelter Standards, and Section 6.5 of the 24-Hour Respite Site Standards.</p> <p>During a Heat Warning it is imperative that shelter, respite and 24-hour Drop-in providers do not turn away individuals who are looking for shelter or a place to come inside from the heat. Programs should temporarily suspend all service restrictions except in circumstances where the individual poses an immediate threat or danger to others.</p> <p>It is essential that information in SMIS regarding vacant beds is as up-to-date and accurate as possible. The information in SMIS is critical in connecting people looking for referrals to a cool space.</p> <p>To assist in ensuring an effective system flow this Bulletin highlights key sections of the Toronto Shelter Standards and system guidelines for staff to employ:</p> <ul style="list-style-type: none">• Ensure that the service queues are clear of "stale" intakes, by using the "closeout" drop down option if clients are no longer being served in your programs• Complete intakes in SMIS in real time for every client; this allows for better management of the system and the ability to ensure requests for shelter beds are prioritized appropriately• Do not hold beds for clients referred to your shelter longer than 2 hours. Providers may grant extensions beyond the maximum

TORONTO SHELTER BULLETIN

Bulletin No.: 2024-03

Date Issued: June 17, 2024

queue/hold time under extenuating circumstances (e.g., lengthy travel time to site), as per Toronto Shelter Standards

- Make vacant beds available for use as soon as practical in order to facilitate new admissions
- Make sure clients are aware of curfew times and that they may be discharged if they miss curfew with no communication or explanation (beds must not be held after curfew unless a client's service plan requires it)
- Emergency shelter beds that are vacant as a result of an approved Leave with Permission should be treated as an available bed and assigned to clients seeking shelter
- Notify TSSS Duty Office immediately of any and all planned service disruptions

In order to assist with managing capacity demands, please also ensure the following:

- Report serious occurrences immediately to TSSS Duty Office and document in SMIS within 12 hours
- Document incidents in SMIS using the SMIS incident reporting module as soon as possible but no later than 12 hours after the incident

Individuals looking to get in from the heat can also visit one of the City-funded daytime drop-in programs listed at www.toronto.ca/homelesshelp. Alternate Cool Spaces (i.e., community centres, libraries, etc.) can also be found on the City's interactive map at www.toronto.ca/keepcool.
