

TORONTO Environment & Climate

Corporate Services

In addition to promoting environmental sustainability, energy efficiency, and conservation within the City's internal operations, the Environment & Climate Division develops and implements environmental, climate and energy policies, projects, and programs that promote sustainable development and the growth of the green economy; provides research and policy expertise; establishes and leverages partnerships with internal and external stakeholders; delivers tools and resources to engage Toronto residents and businesses in adopting sustainable lifestyles and business practices; and ensures the City can maintain its global leadership position in environmental stewardship.
