Installation of Bikeway Improvements Dundas Street East from Logan Avenue to Pape Avenue

Start Date: July 22, 2024 End Date: July 31, 2024

**Timeline is subject to change.*

The City of Toronto is preparing to modify the bikeways (bike lanes and cycle tracks) on Dundas Street East from Logan Avenue to Pape Avenue. As part of this project, the bike lanes will be upgraded to cycle tracks and the on-street parking will be moved to between the motor vehicle lane and the cycle track.

The project was approved by City Council in February 2024. The City is implementing these changes on Dundas Street to improve safety and comfort for all road users.

Project Overview

Residents can expect new pavement markings, and several changes to parking signage.

Key changes will include:

- Reconfiguration of the unprotected bike lanes on Dundas Street East from Logan Avenue to Pape Avenue to cycle tracks. The on-street parking will be retained but will be moved to be between the vehicle lane and the cycle track.
- Installation of pavement markings, physical barriers (such as precast concrete curbs and flexible bollards) and signage for cycle tracks and parking

City services such as Fire, Paramedics and garbage pick-up will continue as usual.

Figure 1: The changes on Dundas Street East will be similar to the changes completed last year on Dundas Street between Greenwood Avenue and Alton Avenue

Dundas Street East: Logan Avenue to Carlaw Avenue

Key changes:

- Reconfiguration of cycle tracks on the south side of the street with flexible bollards and precast concrete curb
- No reduction in parking spaces

Dundas Street East: Carlaw Avenue to Pape Avenue

Key changes:

- Reconfiguration of cycle tracks on the north side with flexible bollards and precast concrete curb
- No changes to parking spaces.

What to Expect During Installation

The City will make efforts to reduce the impacts of noise and other inconveniences. We appreciate your patience.

During installation, the City’s contractors will complete the following work:

- Temporarily remove on-street parking
- Remove existing pavement markings and install new markings
- Install precast concrete curbs and flexible bollards
- Install new signage, as required

	<p>Work Hours: Pavement marking changes will take place overnight from 9:00 p.m. to 6:00 a.m. Daytime work will take place mostly in the off-peak hours/evenings to limit traffic disruptions.</p>
	<p>Traffic Management: Efforts have been made to manage traffic in the area for the safety of workers, road users and residents. Road users should expect delays and increased traffic.</p> <ul style="list-style-type: none"> • Road and Sidewalk Access: In order to complete the work in a safe manner, there will be partial closures within the work zone. • Driveway Access: The contractor will notify you of any temporary restrictions to your driveway access. If your property has two entrances, one entrance will be kept open at all times. • Side Street Access: Turns through the work zone may be restricted and signed during active construction <p>Emergency Services: Access for emergency vehicles will be maintained at all times.</p>
	<p>People Cycling: If travelling on Dundas Street East, please share the traffic lane in the active work zones as signed.</p>
	<p>Parking and Loading: Parking in the active work zone is not permitted due to space requirements for construction equipment and materials. If your parked vehicle affects installation, it will be relocated with no charge to the owner. If your vehicle is moved, please contact parking control for its location at 416-808-2222. Changes to the parking by-laws will be signed.</p>
	<p>Parking Violation Notices: <u>Please ensure you park in a legal parking spot at all times.</u> If parking enforcement is called to a street, officers will issue a yellow parking violation notice (ticket) to vehicles in violation of parking by-laws. If you receive a yellow notice during this construction work, please do one of the following within 15 days of the notice date in order to avoid additional fines or records being kept of non-payment:</p> <ol style="list-style-type: none"> 1. Pay the parking violation (follow instructions on the back of the yellow parking violation notice) or 2. File a Parking Violation Dispute with the City online, by mail, or in person (follow instructions on the back of the yellow parking violation notice). As part of the dispute process, you may submit a copy of this notice. <p>Please note: Violation notices cannot be cancelled if vehicles are parked in illegal parking spots (i.e. in front of a fire hydrant or in No Parking zones).</p> <p>To reduce ticketing due to installation, please exercise patience with neighbours who are experiencing installation impacts and may need to temporarily park on your street.</p>
	<p>Garbage & Recycling: Please follow your normal routine. If required, the contractor will move bins to an appropriate location and return them. Please ensure that you label your bins with your address.</p>

Accessible Accommodation: The City's contractor must ensure safe and accessible walkways and entryways are maintained for everyone during installation. Any temporary access disruptions will be communicated as soon as possible. If you experience a disruption, have a specific access need or related accommodation request, please inform the contact listed below.
