

TORONTO Development Review

Development & Growth Services

The Development Review (DR) division is streamlining and enhancing the development review process citywide to help the City meet its strategic goals to deliver housing faster with a focus on affordable housing. The division seeks to build a more equitable, inclusive city where more people have access to affordable housing and can thrive in complete communities. DR reviews development applications and recommends actions on these matters to Community Councils and the Planning & Housing Committee.

Development Review Map

The Development Review team has five geographic District Teams, each of which has three or four geographic Section Teams. Please refer to the [Development Review Division Map](#) (PDF), which is a detailed map of the districts and sections.
