Attachments: 2024-04-03_EELRT Overview.pdf; Appendix G_21EA-120 Stage 1 Report 10_2024-02-12 (002).pdf

Dear Chief Ted Williams,

On behalf of the [Eglinton East Light Rail Transit](#) (EELRT) project, led by the City of Toronto and working in partnership with the Toronto Transit Commission (TTC), I am writing to share with you in advance of the start of the Transit and Rail Project Assessment Process set out in Ontario Regulation 231/08, as amended, the following attached documents related to the EELRT:

- **An overview of the project and environmental impacts and mitigation measures**
- **A copy of the revised Stage 1 Archaeology Assessment Report (Appendix G to EPR).** An earlier copy of the Stage 1 AA report was provided in January this year. The revised report includes additional archeological assessment for traction power sub-station sites located along the route of the LRT.

Owing to the size of the documents, I will be sending **a draft copy of the Environmental Project Report (EPR)** in a separate email.

Note that, in addition, upon request, we can also make available the following Appendices to the EPR to you. Because of the size of the files, they would need be sent through a secure file transfer service:

- Appendix A: EELRT Alignment Plan and Profile Plates
- Appendix B: Utility Conflict Matrix and Related Annotation Drawings
- Appendix C: Drainage and Stormwater Management Report
- Appendix D: Socio-Economic Report
- Appendix E: Natural Environment Report
- Appendix F: Cultural Environment Report
- Appendix H: Air Quality Report
- Appendix I: Noise and Vibration Report
- Appendix J: Geotechnical Assessment Report
- Appendix K: Contamination – Limited Phase 1 ESA
- Appendix L: Record of Consultation and Public Consultation Report
- Appendix M: Traffic Impact Assessment Report
- Appendix N: Architectural Drawings at SSE Interfaces

If you would like to arrange a time to speak to the project team to ask any questions or provide comments, please follow up with us by May 1, 2024.

When the Transit and Rail Project Assessment Process officially begins this spring, we will send you a Notice of Commencement and information about how Chippewas of Rama First Nation can participate in the EELRT phase two public consultations. As part of the Transit and Rail Project Assessment Process, you will have another opportunity to review the EPR and related reports, ask questions and provide comments.

On behalf of the EELRT Project Team,

Anna Kim

Subject: Eglinton East LRT Public Notice
Attachments: 2023-05-11 EELRT - Full - CLR - Border.png

Dear Chief Emily Whetung, Kaitlin Hill and Julie Kapyrka,

The City of Toronto and the Toronto Transit Commission are working to bring rapid and reliable transit to Scarborough. The Eglinton East Light Rail Transit (EELRT) is a proposed 18 km light rail transit system through Scarborough, connecting Kennedy Station and the future Sheppard-McCowan Station to Malvern Town Centre and the University of Toronto Scarborough Campus. The Eglinton East LRT will increase transportation options in Scarborough and enhance access to the community, businesses, public amenities and create opportunities to improve the local economy and environment.

Stakeholders and members of the public are invited to learn more about the project and provide feedback on the functional (10 per cent) design, including Eglinton East LRT stop locations. Public input, along with policy guidelines and technical requirements will inform the functional design that will be presented to City Council later this year. The functional design will follow the requirements of a Transit Project Assessment Process (TPAP).

The public consultation for this phase of the project will take place May 15 – June 21, 2023. Additional information about these sessions is available on the project website at toronto.ca/EglintonEastLRT.

At this time we would like to extend an opportunity to the Curve Lake First Nation to provide feedback on the project or request a meeting with the project team to learn more about EELRT.

Please note that this round of public consultation is only related to the functional 10% design of EELRT. This phase of the project includes the commencement of a Transit Project Assessment Process (TPAP), currently targeted for Fall 2023. You will be sent a second Notice requesting your questions and comments about the TPAP when the Notice of Commencement is issued later this year.

The currently proposed alignment for EELRT is shown below in context to other existing and planned transit networks in the Scarborough area:

We look forward to your reply. Should you have any questions, or if you would like to discuss the project in greater detail, please contact the Public Consultation Unit, via email, Eglintoneastlrt@toronto.ca.

On behalf of the project team,

Amanda Ratych (*she/her*)

Dear Chief Emily Whetung,

I am writing to update you about the Eglinton East Light Rail Transit (EELRT) project, an initiative led by the City of Toronto and the Toronto Transit Commission to bring rapid and reliable transit to Scarborough. The EELRT will increase transportation options in an underserved region of Toronto; enhance access to the community, businesses, and public amenities; and create opportunities to improve the local economy and environment. For more information about the EELRT, see the [project web page](#).

The first phase of public consultations for feedback on the functional (10%) design of the EELRT took place during the period of May 15 – June 21, 2023 and in December 2023, City Council approved staff recommendations for the alignment (route) for the Eglinton East Light Rail Transit project and next steps which include the Transit Project Assessment Process (TPAP).

In advance of the official start of the TPAP, I am writing to share a copy of the **Stage 1 Archaeology Assessment Report** for the EELRT. I kindly request that Curve Lake First Nation share any questions or concerns about the findings of the report by Friday, February 16 or contact me should you need more time to review the report.

When the TPAP officially begins in the spring of 2024, we will send you a Notice of Commencement and information about how Curve Lake First Nation can participate in the EELRT phase two public consultations.

Dear Chief Laurie Carr,

I am writing to update you about the Eglinton East Light Rail Transit (EELRT) project, an initiative led by the City of Toronto and the Toronto Transit Commission to bring rapid and reliable transit to Scarborough. The EELRT will increase transportation options in an underserved region of Toronto; enhance access to the community, businesses, and public amenities; and create opportunities to improve the local economy and environment. For more information about the EELRT, see the [project web page](#).

The first phase of public consultations for feedback on the functional (10%) design of the EELRT took place during the period of May 15 – June 21, 2023 and in December 2023, City Council approved staff recommendations for the alignment (route) for the Eglinton East Light Rail Transit project and next steps which include the Transit Project Assessment Process (TPAP).

In advance of the official start of the TPAP, I am writing to share a copy of the **Stage 1 Archaeology Assessment Report** for the EELRT. I kindly request that Hiawatha First Nation share any questions or concerns about the findings of the report by Friday, February 16 or contact me should you need more time to review the report.

When the TPAP officially begins in the spring of 2024, we will send you a Notice of Commencement and information about how Hiawatha First Nation can participate in the EELRT phase two public consultations.

On behalf of the EELRT Project Team,

Dear Chief Laurie Carr,

Please find attached a **draft copy of the Environmental Project Report (EPR)** for the Eglinton East LRT.

Again, upon request, we can also make available the following Appendices to the EPR to you. Because of the size of the files, they would need be sent through a secure file transfer service:

- Appendix A: EELRT Alignment Plan and Profile Plates
- Appendix B: Utility Conflict Matrix and Related Annotation Drawings
- Appendix C: Drainage and Stormwater Management Report
- Appendix D: Socio-Economic Report
- Appendix E: Natural Environment Report
- Appendix F: Cultural Environment Report
- Appendix H: Air Quality Report
- Appendix I: Noise and Vibration Report
- Appendix J: Geotechnical Assessment Report
- Appendix K: Contamination – Limited Phase 1 ESA
- Appendix L: Record of Consultation and Public Consultation Report
- Appendix M: Traffic Impact Assessment Report
- Appendix N: Architectural Drawings at SSE Interfaces

If you would like to arrange a time to speak to the project team to ask any questions or provide comments, please follow up with us by May 1, 2024.

When the Transit and Rail Project Assessment Process officially begins this spring, we will send you a Notice of Commencement and information about how Hiawatha First Nation can participate in the EELRT phase two public consultations. As part of the Transit and Rail Project Assessment Process, you will have another opportunity to review the EPR and related reports, ask questions and provide comments.

- Appendix K: Contamination – Limited Phase 1 ESA
- Appendix L: Record of Consultation and Public Consultation Report
- Appendix M: Traffic Impact Assessment Report
- Appendix N: Architectural Drawings at SSE Interfaces

If you would like to arrange a time to speak to the project team to ask any questions or provide comments, please follow up with us by May 1, 2024.

When the Transit and Rail Project Assessment Process officially begins this spring, we will send you a Notice of Commencement and information about how Hiawatha First Nation can participate in the EELRT phase two public consultations. As part of the Transit and Rail Project Assessment Process, you will have another opportunity to review the EPR and related reports, ask questions and provide comments.

On behalf of the EELRT Project Team,

Anna Kim

Anna Kim (she/her)

Senior Public Consultation Coordinator

Policy, Planning, Finance and Administration
