## Road Reconstruction on Sentinel Road from Sheppard Avenue to Lamberton Boulevard

**Contract: 24ECS-RD-06LR**  
**Start Date: August 2024: End Date: November 2025**  
*\*Timeline is subject to change.*

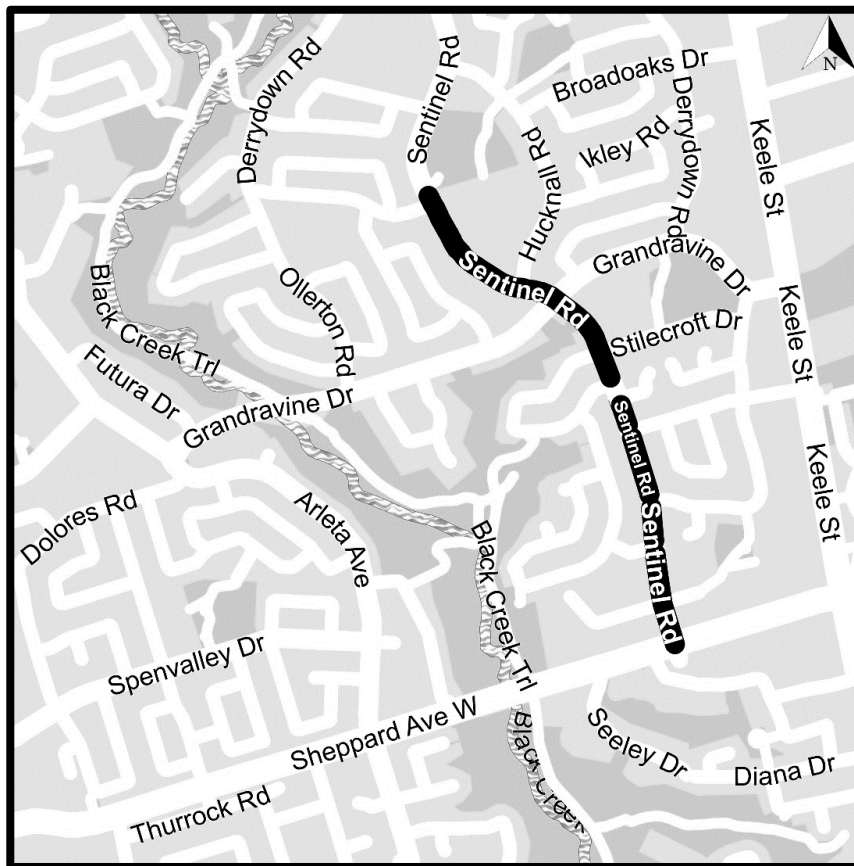

The City of Toronto is planning to reconstruct the road and replace the City-owned portion of substandard water services on Sentinel Road from Dovehouse Avenue to Fonthill Place. Our inspection of the road shows that it needs reconstruction, new curb/gutter and sidewalk to bring them to a state of good repair. Additionally raised cycle tracks will be installed on both sides of the street.

This project is part of the Council-approved 2024 Capital Works Program to renew aging city roads and sidewalk for current and future needs.

### IMPORTANT INFORMATION ABOUT LEAD WATER SERVICES

If you live on Sentinel Road in a house or commercial property that was built before the mid-1950s, your water service may be made of lead. Please read the attached fact sheet with important information about the risks of lead in drinking water, especially if someone in your house is pregnant, there are children under six years old, or there is an infant drinking formula made using tap water.

### MAP OF WORK AREA

### WHAT TO EXPECT BEFORE CONSTRUCTION

- Excavate the road, construct new curb & gutter and sidewalks and raised bicycle track
- Construct road base with granular material and pave base and surface asphalt
- Restore driveways and other areas affected by construction
- Affected properties will receive a Construction Notice approximately two weeks before work begins with more information about the work.
- The City will not be responsible for damage to any privately owned items on City property.

	<p><b>Accessible Accommodation:</b> The City's contractor must ensure safe and accessible walkways and entryways are maintained for everyone during construction. Any temporary access disruptions will be communicated as soon as</p>
---	--

	possible. If you experience a disruption, have a specific access need or related accommodation request, contact the <b>Project Contact/Manager</b> listed below.
	<p><b>Access to Your Home:</b> The City-hired contractor may need access to the interior and exterior of your home to complete a pre-construction condition survey. Affected properties will receive a request to schedule a time to complete the pre-construction condition survey. Although participation is voluntary, the pre-construction survey results may be useful to confirm claims for potential damage caused by City construction.</p>
	<p><b>Important information for owners of sprinkler systems / heated driveways and private landscaping features.</b> Property owners should remove items located within City property limits (boulevard) to avoid damage.</p> <p>This includes items such as landscaping (plants and pavers), decorative objects, sprinkler systems or heated driveways. If you have a sprinkler system or heated driveway, please contact the <b>Project Manager</b> listed below.</p>
	<p><b>Substandard Water Service Replacement:</b> Please take the time to read the attached fact sheet carefully as it contains important information on lead in drinking water and how to prepare for replacement. <b>First, you need to find out if your water service is lead</b> – a licensed plumber can help you with this. If it is lead, the City of Toronto encourages you to replace it. We recommend you obtain several quotes. <b>PLEASE NOTE:</b> The City is not able to get involved in any contract to have work done on private property. Property owners are responsible for ensuring contractors do not interfere with the work being done on City property.
