

April 2, 2025

Utility Investigation for Doris Avenue Infrastructure Improvements

Contract Information: 24ECS-RD-01SP

Expected Start Date: April 9th, 2025

Expected End Date: April 11th, 2025

**weather dependent.*

The City of Toronto has retained Parsons Inc. as the design consultants on the North York Centre: Doris Avenue Extension project. Before this study can begin, 4Sight Utility Engineers on the behalf of Parsons Inc, will be conducting a subsurface utility investigation to determine the presence and alignments of underground utilities. See Figure 1, illustrating the study area. This includes:

- Doris Avenue south of Greenfield Avenue and extending southerly to include the intersection.
- Sheppard Avenue East from Kenneth Avenue to the east side of Yonge Street.
- Bonnington Place between Anndale Dr and Sheppard Ave E.

Dependent on weather conditions, the utility investigation will take place [3] days between April 9th, and April 11, 2025. This investigation will provide detailed mapping and locations of underground utilities within the limits of investigation.

WORK DETAILS

- The work requires pipe and cable locating equipment which emits electromagnetic signals. The equipment carried by field crews emits a beeping sound.
- Utilities alignments will be painted on the ground the pink spray paint. The paint is environmentally friendly and will wash away after rainfall.
- A GPS survey will be completed to collect the alignments of the utilities.
- Catch basins and maintenance holes will be accessed throughout the work area to collect measurements from sewer pipes. Short sections of lanes may be blocked for temporary access to these structures, the will be completed per OTM book 7 traffic safety standards.
- No dust, nuisances or significant noise is expected.

WHAT TO EXPECT DURING SITE WORK

Work Hours: The subsurface utility investigation will be completed over 3 days: Between April 9 to April 11, from 8:30 a.m. to 3:30 p.m EST.
