

Construction Update: July 25, 2025

Gardiner Expressway Strategic Rehabilitation: Dufferin Street to Strachan Avenue | Community Update

Thank you for subscribing to the Gardiner Expressway Rehabilitation, Section 2 Dufferin Street to Strachan Avenue, community update e-newsletter.

Project Overview:

The project is taking place in three stages, focusing on two lanes at a time while keeping four lanes open.

- Stage 1 south two lanes (complete)
- Stage 2 middle two lanes (complete)
- Stage 3 north two lanes (current stage)
- Stage 4 center median barrier reconstruction (final stage)

Key elements of the construction project include:

- Preparation work (completed).
- Installing temporary support systems to allow for the construction work to safely take place while keeping two-thirds of the Expressway open.
- Demolishing and reconstructing the elevated roadway.
- Removing and replacing the bridge deck and the large beams (girders) that support the road.
- Rehabilitating the concrete support columns (bents).
- Finishing works.

Overnight Work Update:

As mentioned in the previous update, work is expected to begin as early as **4 a.m.** daily to accommodate the delivery and installation of girders to the site during lower traffic volumes. This operation is anticipated to be completed on **Saturday, July 26**. Girders will be delivered by transport trucks and positioned at ground level. A large crane will be used to lift and install the girders. This work will be much less disruptive than demolition work.

On **Sunday, July 27** and **Sunday, August 3**, work is expected to begin at **11 p.m.** to carry out concrete deck pours. This work is expected to be significantly less disruptive than demolition work.

Thank you for your patience!

We appreciate your patience and understanding as we work towards a safer and more efficient Gardiner Expressway.
