TTC Track Replacement and Road Resurfacing at the Intersection of College Street and McCaul Street

Contract: 25ECS-RD-04SW
Start Date: October 2025 End Date: November 2025
**Timeline is subject to change.*

The City of Toronto and Toronto Transit Commission will renew aging streetcar tracks at the intersection of College Street and McCaul Street. The streetcar tracks are more than 20 years old and in need of replacement.

To complete the work, the intersection will be fully closed to all vehicles from early October to mid-November 2025.

This work is required to bring the track infrastructure to a state of good repair and is part of the Council-approved 2024 Capital Works Program.

The TTC will also take this opportunity to upgrade the overhead infrastructure in the area before, during and after this project.

MAP OF WORK AREA

WHAT TO EXPECT BEFORE CONSTRUCTION

- Work crews will mark the locations of underground utilities, such as gas, water and cable so that the construction work does not interfere with these utilities.
- Affected properties will receive a Construction Notice approximately two weeks before work begins with more information about the work.
- The City will not be responsible for damage to any privately owned items on City property

Work Hours: Work on this project will take place 24 hours 7 days a week. Excavation activities and heavy breaking will be carried out at various times throughout the day. All concrete breaking activities will occur between 7 a.m. and 11 p.m. Concrete breaking work is the most disruptive and will typically last the first 1-2 days for each phase of the construction. Around-the-clock work during rail installation by TTC is required to preserve the integrity and quality of new rail and concrete. Overnight rail work by TTC may consist of moving new rail into position, rail installation and rail welding / grinding.

	Traffic Management: Efforts will be made to manage traffic and closures in the area for the safety of workers, road users and residents. Road users should expect delays and increased traffic on nearby main and side streets during this work.
	During this project: <ul style="list-style-type: none">506/306 Carlton streetcars will divert via Spadina Avenue, Dundas Street and Bay Street.Increased bus service on the 94 Wellesley route between Ossington and Wellesley stations. Visit: ttc.ca/projects for the latest information
 	Road and Sidewalk Access: In order to complete the work in a safe manner, there will be road and sidewalk restrictions within the construction work area. Driveway Access: The contractor will notify you of any temporary restrictions to your driveway access. If your property has two entrances, one entrance will be kept open at all times. Access for emergency vehicles will be maintained at all times. Laneways: Laneways and driveways that serve businesses in the area will remain accessible for deliveries or service.
	Cyclists: During construction the cycle track on College Street will be temporarily closed through the work zone. People cycling will be required to dismount and walk or use the signed detour route.
	Accessible Accommodation: The City's contractor must ensure safe and accessible walkways and entryways are maintained for everyone during construction. Any temporary access disruptions will be communicated as soon as possible. If you experience a disruption, have a specific access need or related accommodation request, please contact us at the information listed below.
	Deliveries: Businesses may want to consider adjusting delivery times as a result of the lane restrictions during this project.
