## Updates on Huntingwood Drive from Warden to Kennedy

**Contract: 23ECS-RD-08MR**

*\*Timeline is subject to change.*

Further improvements are taking shape on Huntingwood Drive.

Following a review of roadway conditions and traffic operations, the City of Toronto will be making additional improvements along Huntingwood Drive. This includes the phased installation of additional parking spaces and the correction of roadway deficiencies, such as areas of uneven or damaged asphalt.

### Phase 2: Warden to Birchmount Road

- Work includes adding five parking spots between Kimberdale Crescent and Garybrook Drive.
- Estimated timing: Late spring 2026 (approximately one month in duration).

### Phase 3: Birchmount Road to Kennedy Road

- Work includes adding five parking spots between Birchmount Road and Harfleur Road and fixing uneven or damaged asphalt.
- Estimated timing: Summer 2026 (approximately one month in duration).

These are the estimated timelines. More detailed information will be shared in a construction notice next year before the work begins.

## GREEN INFRASTRUCTURE

Some of the plants within the new green infrastructure have not grown as expected.

The City's contractor has removed weeds and replanted the areas with new plants. Continuous maintenance of planters and green gutters are on going until the end of this year. The site continues to be monitored, and further inspections will take place next spring to confirm proper growth and determine whether any additional restoration is needed.

Thank you for your continued patience as this work progresses.

## NEED MORE INFORMATION?

If you have questions about this construction project, please contact staff listed below.
