Leaside/Millwood Bridge Inspection (over Don Valley Parkway/Don River/Bayview Extension)

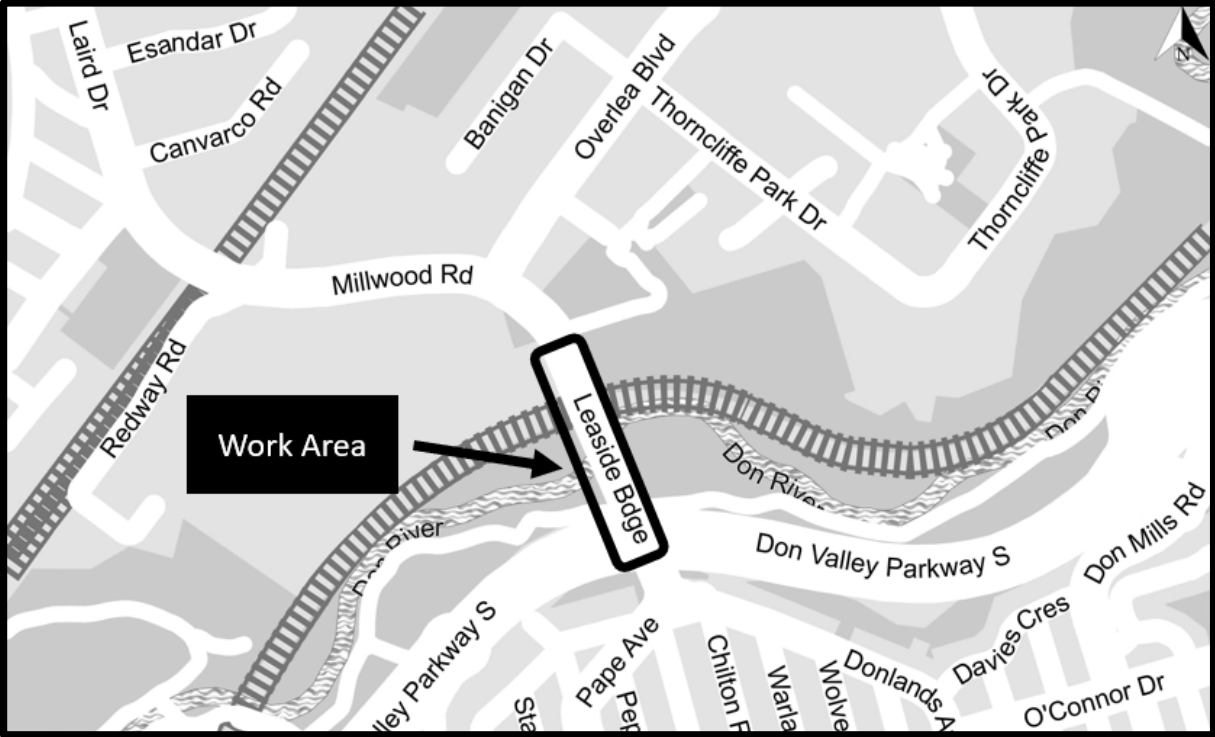

Expected Start Date: November 24, 2025
Expected End Date: December 7, 2025
Overnight Work Hours: 9 p.m. to 4 a.m.
**Content/dates subject to change.*

As part of the City of Toronto’s regular bridge inspection program, a detailed safety inspection of the Leaside/Millwood Bridge over the Don Valley Parkway, Don River, and Bayview Extension is being conducted.

To accommodate the specialized equipment required for this work, one bike lane will need to be temporarily closed at a time in each direction during the overnight inspection hours of 9 p.m. to 4 a.m.

We recognize that this type of closure is disruptive. Your patience during this inspection work is appreciated.

MAP OF INSPECTION AREA

WHAT TO EXPECT DURING INSPECTION WORK

	Road and Sidewalk Access: The impacted sidewalk will remain open with a Traffic Control Person directing pedestrians.
	Cyclists: During inspection, the bike lane will be temporarily closed (in one direction at a time) through the work zone. Signs will be posted directing cyclists and drivers to share the lane, single file, through the work zone.
	Traffic Management: Road users should expect delays and increased traffic on nearby main and side streets. Motorists are reminded that bicycles and cars will be sharing the lane single file. When driving, please be mindful of vulnerable road users.
