## Gardiner Expressway Rehabilitation: Section 3 Early Works on Five Bridges Overnight Closure of Park Lawn Road at Gardiner Expressway & Project Timeline Update

Contract #: 24ECS-BE-02GB

Overnight Work Start Date: December 13, 2025

Overnight Work End Date: December 14, 2025

*Dates are subject to change.*

This notice provides an update on the Gardiner Expressway Rehabilitation: Section 3 Early Works on Five Bridges project.

### OVERNIGHT DEMOLITION – DECEMBER 13 - 14, 2025

As part of this project, overnight demolition activities will be taking place from **11 p.m. on Saturday, December 13 until 11 a.m. Sunday, December 14**, to remove the south portion of the Gardiner Expressway that runs over Park Lawn Road.

To safely complete this work, a full overnight closure of Park Lawn Road will be required from the Park Lawn Road on-ramp to the Gardiner Expressway westbound (north limit) to the Gardiner Expressway eastbound off-ramp to Park Lawn Road (south limit). This work is being completed overnight when traffic volumes are lower to help ensure the safety of crews and the travelling public.

**For information about road, sidewalk and TTC bus impacts during this closure, please see the “What to Expect During Overnight Demolition” section on page two of this notice.**

### PROJECT TIMELINE UPDATE

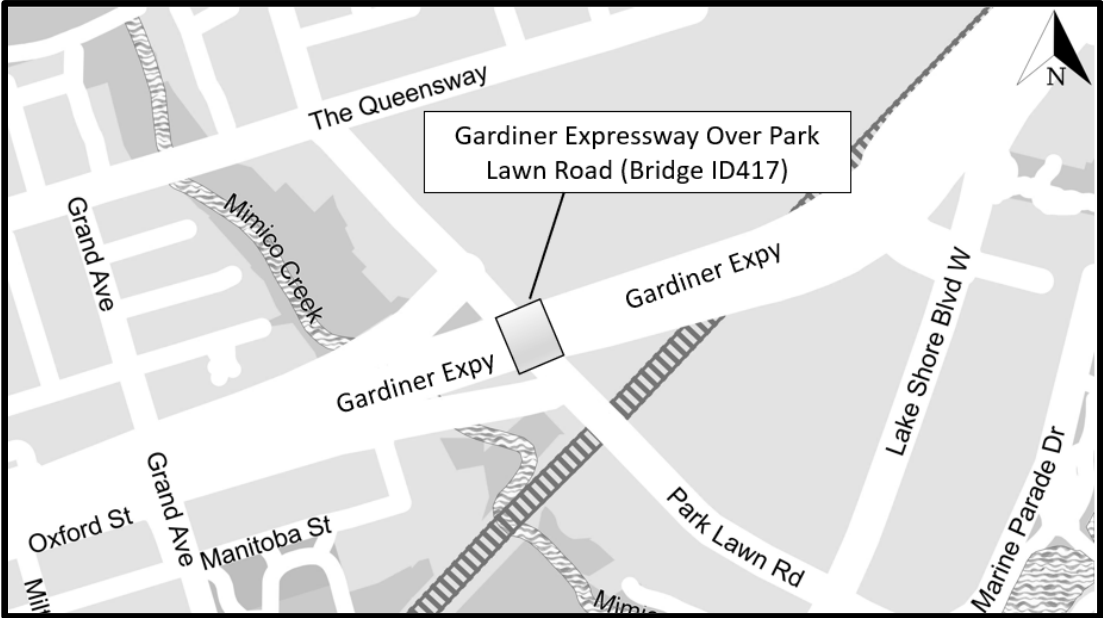

Due to site conditions that required additional investigation and design revisions, work on the bridges at Kipling and Islington Avenues over the Gardiner Expressway will extend beyond the original 2025 completion date and is now expected to be completed **May 2026**.

As a result, construction on the Park Lawn Road on-ramp to the westbound Gardiner Expressway has been delayed and is expected to begin in **August 2026 and continue until December 2026**. A more detailed construction notice regarding the Park Lawn Road on-ramp work will be sent out prior to construction starting.

While work on the Kipling and Islington bridges has been extended, the overall project completion of December 2026 is not expected to be impacted.

We thank you for your patience and understanding as this essential infrastructure work continues to progress.
