The City of Toronto is modifying and upgrading the storm and sanitary system in your area to reduce surface and basement flooding. Due to the depth and nature of the construction on The Westway and surrounding streets, work is scheduled to take place near Dixon Grove Junior Middle School **from Friday, November 28 through the week of December 1, 2025**. During this time, school driveways/parking lot entrances will be impacted during the work at certain times between 7 P.M. -7 A.M., however, access will be maintained during the daytime Monday-Friday.

This project is part of the Council-approved 2025 Basement Flooding Protection Program to improve the water distribution system, renew our aging infrastructure and reduce the risk of sewer collapse or blockages that cause sewer backups and flooding.

WORK DETAILS

For this project, the contractor will:

- Excavate on The Westway to install the storm sewer, followed by restoration of the area, and allocate space on Kipling Avenue for material storage during construction.
- This work will require the temporary closure on Kipling Avenue south of The Westway to all traffic.
