## Stream Rehabilitation of Morningside Creek South of Casebridge Outfall

**Contract: 25ECS-LU-03SM**

**Expected Start Date: June 25, 2026 | Expected End Date: December 31, 2026**

*\*Timeline is subject to change.*

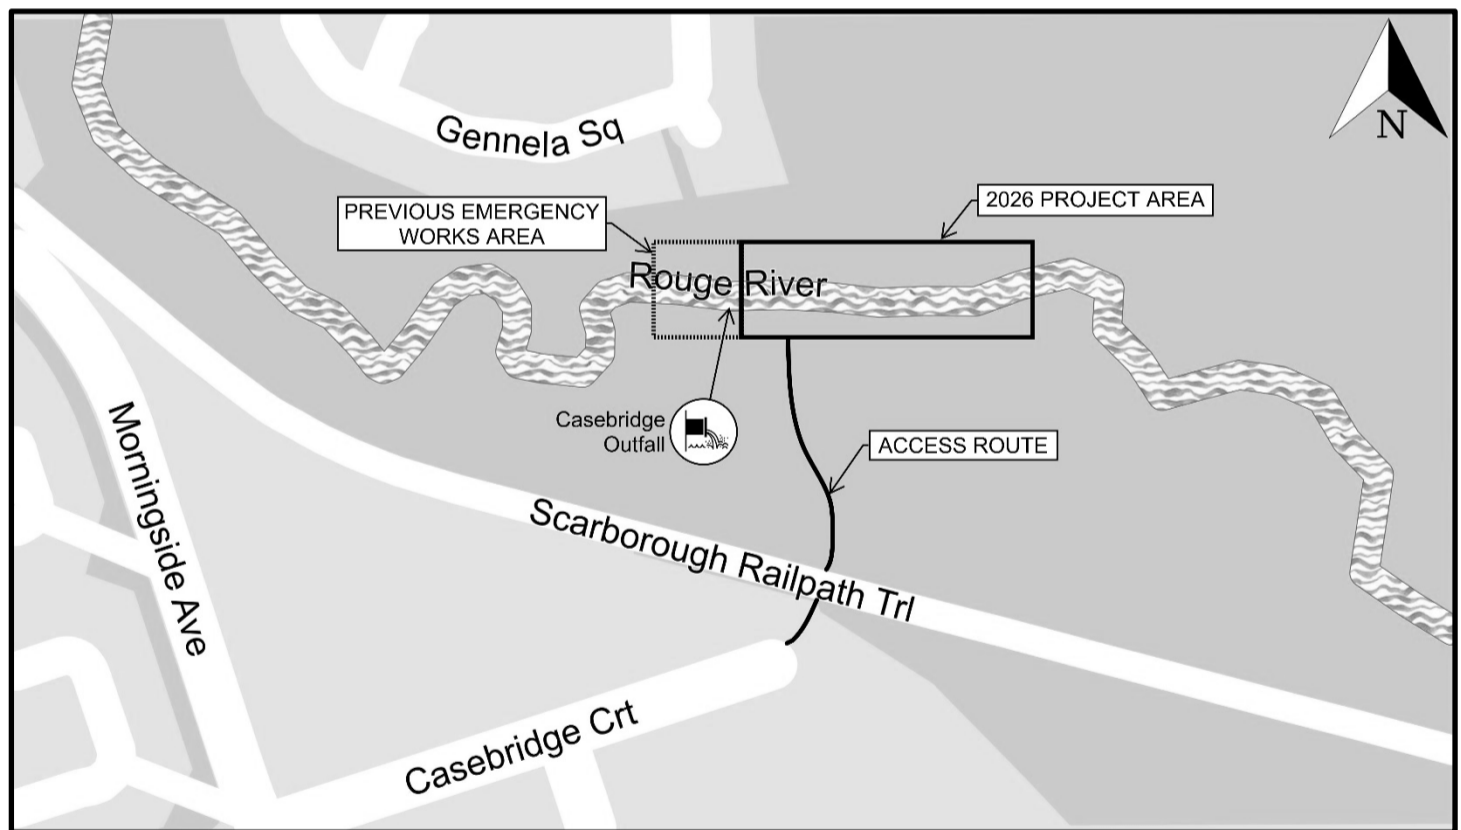

The City of Toronto is planning to restore a 110-metre section of Morningside Creek, a tributary to the Rouge River, that has been damaged by ongoing erosion and extreme rainfall events. Previous emergency works were undertaken in 2014 to provide immediate protection upstream of the project area including repairs to the Casebridge Outfall.

The project is intended to provide rehabilitation to the remaining area downstream of the outfall to ensure the long-term stability and ecological health of the creek. The project area is located north of Casebridge Court and east of Morningside Avenue.

This project will rehabilitate the creek through the installation of erosion protection and in-water habitat enhancement measures. The adjacent floodplain, as well as all areas disturbed by construction, will be enhanced through native riparian plantings to improve the local valley ecosystem.

The project is part of the Council-approved 2026 Capital Works Program.

### MAP OF WORK AREA

### WHAT TO EXPECT BEFORE CONSTRUCTION

- Work crews will mark the locations of underground utilities, such as gas, water and cable so that the construction work does not interfere with these utilities.
- Affected properties will receive a Construction Notice approximately two weeks before work begins with more information about the work.
- The City will not be responsible for damage to any privately owned items on City property.

	<p><b>Accessible Accommodation:</b> The City's contractor must ensure safe and accessible walkways and entryways are maintained for everyone during construction. Any temporary access disruptions will be communicated as soon as</p>
---	--

	possible. If you experience a disruption, have a specific access need or related accommodation request, contact the Project Manager listed below.
	<p><b>Access to Your Property:</b> The City-hired contractor may need access to your property to complete a pre-construction survey. Although participation is voluntary, the City encourages all property owners to participate as the results may be useful to confirm claims for potential damage caused by City construction.</p> <p>Affected properties will receive a separate notice to set up an appointment. All inspection staff will wear photo I.D. and carry photo equipment for this work.</p>
	<p><b>Intermittent Cycling Path Disruption:</b> The Scarborough Railpath Trail will remain open during construction. However, construction vehicles and equipment will occasionally cross the Scarborough Railpath Trail for mobilization, demobilization, deliveries, and disposals. Flag persons will escort vehicles and equipment at all times and provide traffic control for cyclist and pedestrians.</p>

If you have questions about the upcoming work, please contact us.
