## Road Reconstruction, New Sidewalk Installation, Storm and Sanitary Sewer Installation and Watermain Replacement on Ridelle Avenue from Newgate Road to Bathurst Street

**Contract: 25ECS-RD-01LR**

**Start Date: May 2026 End Date: October 2027**

*\*Timeline is subject to change.*

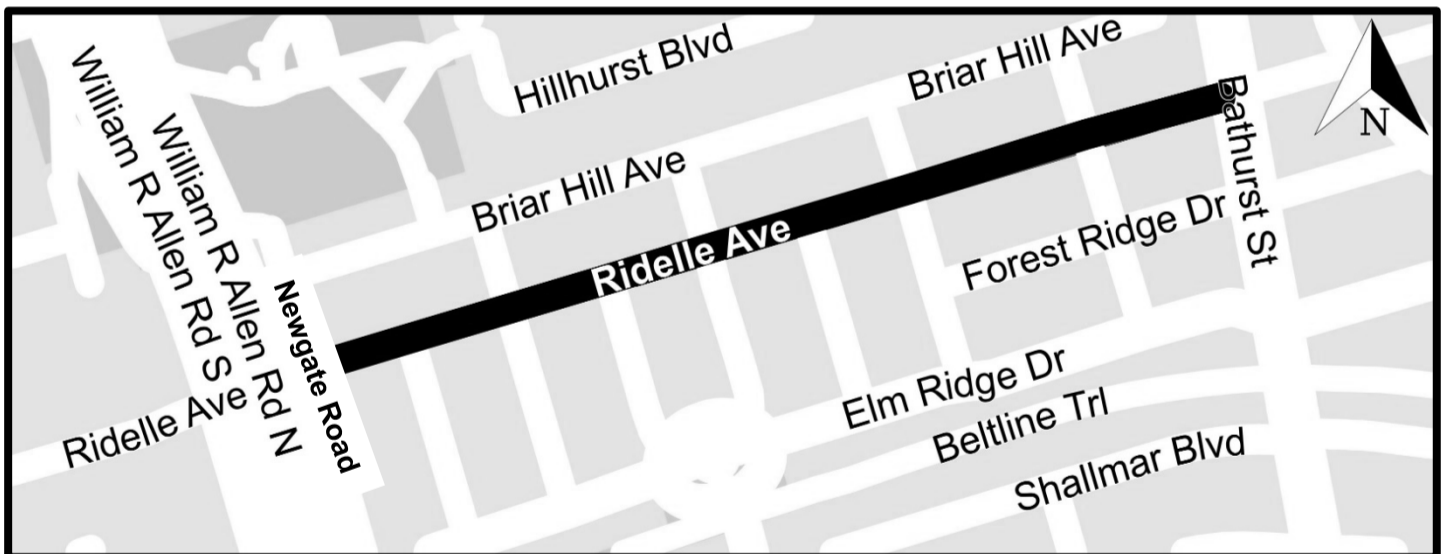

The City of Toronto will reconstruct the road, install a new sidewalk on the north side of Ridelle Avenue between Old Park Road and Bathurst Street and replace the existing watermain, storm and sanitary sewer, and the City-owned portion of substandard water services on Ridelle Avenue from Newgate Road to Bathurst Street.

During construction there will be periodic road closures; and traffic will be reduced on the local road. Residents may also expect dust, noise, a temporary water shutdown and driveway impacts. Appropriate notice will be provided before water shutdown or loss of access to driveways commence.

### IMPORTANT INFORMATION ABOUT LEAD WATER SERVICES

If you live on Ridelle Avenue in a house that was built before the mid-1950s, your water service may be made of lead. Please read the attached fact sheet with important information about the risks of lead in drinking water, especially if someone in your house is pregnant, there are children under six years old, or there is an infant drinking formula made using tap water.

### MAP OF WORK AREA

### WORK DETAILS

The City's contractor will:

- Dig up the road surface and subsurface
- Replace the existing watermain and City-owned part of any water service pipes that do not meet City standards, from the watermain to the private property line
- Replace existing sanitary sewer and City-owned part of any sanitary service pipes that do not meet City Standards, from the sanitary sewer line to the private property
- Replace existing storm sewer and sewer lateral pipes as required
- Re-align maintenance holes and stormwater catch basins
- Install a new sidewalk on the north side of Ridelle Avenue between Old Park Road and Bathurst Street
- Repair existing sidewalk on the north side of Ridelle Avenue between Newgate Road and Old Park Road
- Repair curbs and gutters
- Install a new concrete road base and base asphalt
- Pave the road surface and design pavement marking on the road including new crosswalk marking
- Restore driveways and other areas impacted by construction
- Restore sodded areas impacted by construction

## WHAT TO EXPECT DURING CONSTRUCTION

- You may experience dust, noise and other inconveniences. The City will make efforts to reduce the impacts. We appreciate your patience.
- The City will not be responsible for damage to any privately owned items on City property.

	<p><b>Work Hours:</b> Work will take place from 7 a.m. to 7 p.m., Monday to Friday, with work after hours and on weekends as required.</p>
	<p><b>Pre-Construction Inspection: GPM Environmental,</b> under contract to the City of Toronto, will survey all properties within 30 metres of the construction area before construction starts. The inspection will look at the interior and exterior of all properties to verify existing conditions. Although participation is voluntary, the City encourages all homeowners to participate. Without the survey, it will be difficult to confirm any claims of damage caused by construction.</p> <p>Affected properties will receive a separate notice to set up an appointment. All inspection staff will wear photo I.D. and carry photo equipment for this work.</p>
	<p><b>On-Site Communication:</b> There are times when contractors need to communicate with homeowners about what is happening on-site. This could be about driveway access, water shut offs, pre-construction inspections, and site restoration work (landscaping, installing pavers etc.). Contractor's staff will be identifiable by their high-visibility company branded clothing.</p> <p>If you need to speak with staff about the construction site, please contact the <b>Project Contact</b> listed below or ask for the Site Inspector.</p>
	<p><b>Important information for owners of sprinkler systems / heated driveways and private landscaping features.</b> Property owners should remove items located within City property limits (boulevard) to avoid damage.</p> <p>This includes items such as landscaping (plants and pavers), decorative objects, sprinkler systems or heated driveways. If you have a sprinkler system or heated driveway, please contact the <b>Project Contact</b> listed below.</p>
	<p><b>Telephone and Internet Services:</b> This work may affect phone and internet cables for individual properties that aren't buried deep below the sidewalk. Residents who find their service has been disrupted should contact the Project Contact <b>and</b> notify their phone or internet service provider.</p>
	<p><b>Water Service Disruptions:</b> From time-to-time, the water supply to your property will be shut-off to complete construction; the contractor will provide notice at least 24-hours in advance. Throughout the work, it is recommended that you temporarily disconnect any water treatment systems (i.e. softeners or filters), water-cooled air conditioners or similar plumbing fixtures. Automatic lawn sprinkler systems may also be affected; therefore, you may need to water manually. In the event you did not receive advance notice, the City may have needed to use an <b>emergency water shut off</b> to complete work.</p>
	<p><b>Substandard Water Service Replacement:</b> Please take the time to read the attached fact sheet carefully as it contains important information on lead in drinking water and how to prepare for replacement. If you want to replace the private portion-of the water service pipe, the City of Toronto recommends that you obtain several quotes before selecting a contractor. <b>Please note:</b> The City is not able to get involved in any contract to have work done on private property. Property owners are responsible for ensuring contractors do not interfere with the work being done on City property. Learn more at <a href="http://www.toronto.ca/leadpipes">www.toronto.ca/leadpipes</a>.</p>
	<p><b>Road and Sidewalk Access:</b> To complete the work in a safe manner, there will be road and sidewalk restrictions within the work zone. Access for emergency vehicles will be maintained at all times.</p>

	<p><b>Driveway Access:</b> The contractor will notify you of any temporary restrictions to your driveway access. If your property has two entrances, one entrance will be kept open at all times.</p>
	<p><b>Traffic Management:</b> Road users should expect delays and increased traffic on nearby main and side streets. Motorists are reminded that bicycles and cars will be sharing the lane. When driving, please be mindful of vulnerable road users.</p> <ul style="list-style-type: none"> <li>Traffic on Ridelle Avenue will be reduced to one lane.</li> </ul>
	<p><b>Parking:</b> This project will affect on-street parking. Parking in the active work zone is not permitted as space is needed for construction equipment and materials. If your parked vehicle affects construction work, it will be relocated with no charge to the owner. Please call 416-808-2222 for its location.</p>
	<p><b>Parking Violation Notices: <u>Please ensure you park in a legal parking spot at all times.</u></b> If parking enforcement is called to a street, officers must issue a yellow parking violation notice (ticket) to vehicles in violation of parking by-laws. If you receive a yellow notice during this construction work, please do one of the following within 15 days of the notice date in order to avoid additional fines or records being kept of non-payment:</p> <ol style="list-style-type: none"> <li>1. Pay the parking violation (follow instructions on the back of the notice) <b>or</b></li> <li>2. File a Parking Violation Dispute with the City online, by mail, or in person (follow instructions on the back of the notice). As part of the dispute process, you may include the construction notice and/or other documentation related to parking impacts resulting from construction.</li> </ol> <p>If you do not have a copy of the Construction Notice, please contact 311 to request a copy. <b>Please note:</b> Violation notices cannot be cancelled if vehicles are parked in illegal parking spots (i.e. in front of a fire hydrant or in No Parking zones). In an effort to reduce ticketing due to construction, please exercise patience with neighbours who are experiencing construction impacts and may need to temporarily park on your street.</p>
	<p><b>Accessible Accommodation:</b> The City's contractor must ensure safe and accessible walkways and entryways are maintained for everyone during construction. Any temporary access disruptions will be communicated as soon as possible. If you experience a disruption, have a specific access need or related accommodation request, contact the <b>Project Contact</b> listed below.</p>
	<p><b>Garbage and Recycling:</b> Please follow your normal routine. If required, the contractor will move bins to an appropriate location and return them. <b>Please ensure that you label your bins with your address.</b></p>
	<p><b>Restoration:</b> The construction work area will be restored with sod, concrete and/or asphalt where required. Interlocking bricks, flagstone on a granular base, or other similar features that are removed from public and private property during construction will be replaced. Lawn seeding and/or laying of sod will be done as needed during ideal growing seasons only - (April to June) and (September to October).</p>
