

35 Bellevue Ave. Community Bulletin – May 1, 2026

Work in Progress and What to Expect Between May 1 and May 15, 2026

Building Construction

Crews continue to install electrical, heating, ventilation, and air conditioning systems inside the building.

Roof Installation and Concrete Topping Pours

Roof installation will continue through May. This work will involve:

- Up to four cherry pickers on site to lift crews and materials up to roof level
- Crew members working on the roof to install insulation and prepare levels 2, 3, and 4 for concrete pours

Concrete topping pours for the floor will continue to mid-May. Concrete pours will likely take place between 9:00 am and 1:00 pm. Trucks will arrive throughout the day and pump concrete up to each floor.

Once concrete pours are complete, crews will begin working on siding and closing the building envelope.

Working Hours

Construction working hours are as follows:

- Monday to Friday: 7:00 am to 7:00 pm
- Saturday: 9:00 am to 7:00 pm
