

HOW YOU CAN REMAIN INVOLVED!

NEXT STEPS

Your feedback is important as we move forward through the EA process. The input from this round of engagement will help inform the preferred Alternative for each Segment of the study area.

Once a preferred Alternative is selected for each Segment, the team will refine how each Segment of the site works together, creating a unified vision for the future of the western Scarborough Bluffs waterfront.

- **Review and report on feedback received from public consultation.**
- **Evaluate alternatives and select a preferred alternative for each Segment.**
- **Conduct fourth round of public engagement.**
- **Integrate and refine preferred Segment alternatives to produce overall preferred alternative.**
- **Conduct a detailed effects assessment and develop mitigation, monitoring, and adaptive management strategies.**
- **Conduct fifth round of public engagement.**
- **Prepare and submit draft EA for public and agency review.**
- **Revise EA and submit final EA for formal Ministry of the Environment, Conservation and Parks review and approval.**

HOW YOU CAN REMAIN INVOLVED

Complete the survey by **June 30, 2026** and sign up for email updates as the project moves towards Step 3: Evaluation of Alternatives.
