

# E-scooters

**Not a toy. Not safe.  
Not legal to ride  
in Toronto.**

In Ontario it is illegal for youth under the age of 16 to operate an electric scooter or e-bike. Electric scooters are not allowed on public roads, sidewalks or paths in Toronto, regardless of age.

This past summer, The Hospital for Sick Children saw a notable increase in patients with significant injuries from e-scooter use.

Choose muscle powered kick-scooters and pedal bicycles, and ensure youth always wear a helmet when they ride.
