West Agincourt Streets Plan

愛靜閣西區街道規劃

爱静阁西区街道规划

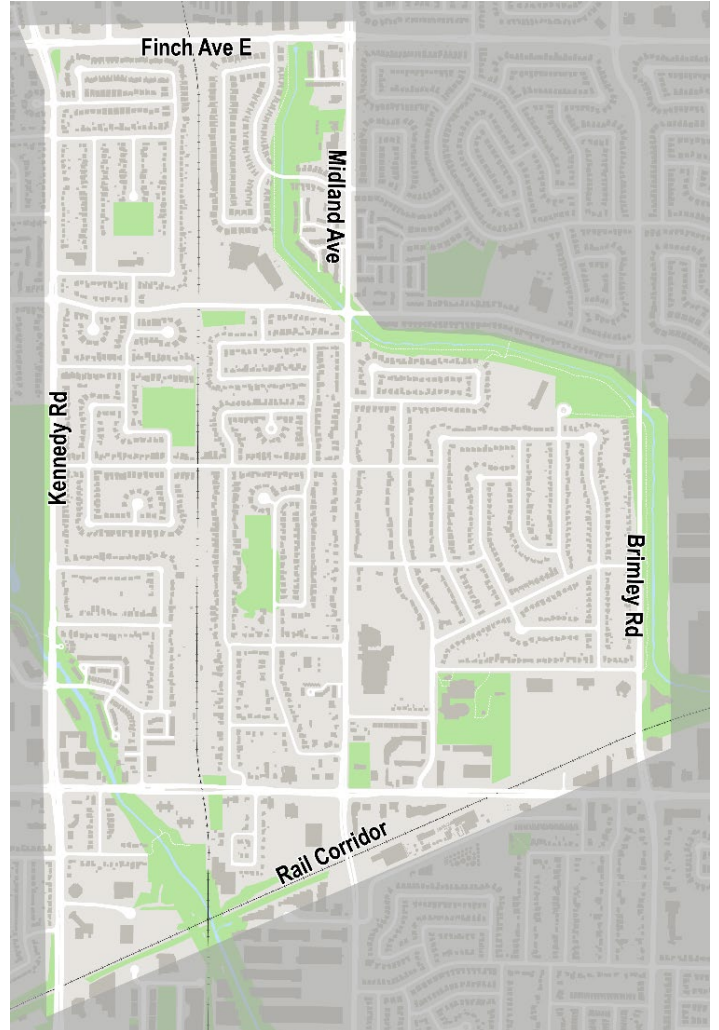

People cycling on a local street in the project area

In consultation with the local community, the City is developing a Neighbourhood Streets Plan for West Agincourt. The Streets Plan will recommend changes to traffic operations and road design to support safety and mobility for everyone using the streets.

The West Agincourt Streets Plan will investigate five main areas of improvement:

1. Road safety for vulnerable road users (e.g. pedestrians, children, older adults and people cycling)
2. Motor vehicle speeding
3. Through traffic on local streets
4. Supporting transportation options (e.g. transit, walking and cycling)
5. Curbside activity (e.g. parking, bus stops, loading zones)

Map of the West Agincourt Streets Plan boundaries

Project Area

The project area is located between Finch Avenue (north), Midland Avenue, the East Highland Creek, and Brimley Road (east), the CPR rail corridor (south), and Kennedy Road (west).

The City invites residents to learn more about the project and participate in identifying issues, opportunities, and ideas for the neighbourhood.

Access to the event location is wheelchair/mobility aid accessible. If you require other disability-related accommodation to participate, please contact us one week before the event.

What is a Neighbourhood Streets Plan?

Streets Plans serve neighbourhoods where traffic and travel options challenge the safety and mobility of people using the streets. Through the planning process, a team of City staff work with communities to identify local issues and opportunities, collect and analyze traffic and travel demand data, and review relevant City programs and policies. The resulting Streets Plan prioritizes the greatest needs and recommends changes to traffic operations and street designs. Streets Plans consider the needs of all road users and emphasize the safety of vulnerable road users such as seniors, school children, pedestrians and people cycling.

Streets Plans are subject to approval of the local Community Council. Approved changes are implemented in coordination with several City divisions to achieve efficiencies and minimize disruption from construction and roadwork. Timeline for implementation varies accordingly.

What types of changes are considered?

Streets Plans typically result in street improvements in the short or medium-term (6 months to 5 years) which can be made using temporary, flexible materials like signs, asphalt, paint, and bollards. Plans also identify desirable changes which are best accomplished as part of programmed road work, property development, or other major city-building projects in the future (typically 5+ years).

The outcomes of each Streets Plan are different based on local conditions and the needs of each neighbourhood. Generally, recommended actions relate to managing motor vehicle speed and volume, and reducing traffic safety conflicts. In every neighbourhood, the planning process is informed by the City's Traffic Calming Guide, Vision Zero Road Safety Plan, Complete Streets Guidelines, Congestion Management Plan, as well as the latest transit service improvement plans advanced in partnership with the Toronto Transit Commission.

How is the community involved?

Public consultation on Streets Plans typically takes place in two phases. The participation of local residents and interest groups is essential to identify appropriate changes and actions for the neighbourhood. Each phase of consultation typically includes a scheduled community event, online information materials, and an online survey for self-guided participation.

Community members may also register to speak (depute) at the Community Council meeting where the final recommended version of the Streets Plan is subject to debate and vote.

愛靜閣西區街道規劃

市政府正與愛靜閣西區社群協商，為社區制定鄰里街道規劃。街道規劃將提出交通運作和道路設計上的修改建議，以保障所有街道使用者的安全和支援出行需要。

愛靜閣西區街道規劃將著重研究五個主要改善領域：

1. 弱勢道路使用者（例如行人、兒童、長者和騎單車者）的道路安全
2. 車輛超速問題
3. 穿越地區街道的車流
4. 支援多種交通方式（例如公共交通、步行和騎單車）
5. 路邊活動（例如泊車、巴士站、上落客貨區域）

爱静阁西区街道规划

市政府正与爱静阁西区社羣协商，为社区制定邻里街道规划。街道规划将提出对交通运营和道路设计方面的修改建议，以保障所有街道使用者的安全和出行便利。

爱静阁西区街道规划将着重研究五个主要改进领域：

1. 弱势道路使用者（例如行人、儿童、老年人和骑车者）的道路安全
2. 机动车超速行驶问题
3. 穿越本区街道的交通
4. 支持多种交通方式（例如公共交通、步行和骑自行车）
5. 路边活动（例如停车、公交车站、上下客/装卸货区域）
