Watermain Replacement and Road Resurfacing on University Avenue from College Street to Armoury Street

Contract: 24ECS-LU-06SU

In July 2026, the City of Toronto notified the local community and stakeholders about upcoming work along the east side of University Avenue (from College Street to Armoury Street). The project includes replacing the watermain and substandard City-owned water services, resurfacing the road, and adding Vision Zero safety enhancements and new pavement markings.

Due to ongoing coordination efforts, this work is deferred until further notice. We remain committed to keeping the community and stakeholders informed and will provide an update before work recommences.
