Streetscape Improvements on Mercer Street

Contract: 25ECS-RD-16SP

Start Date: Late September, 2026 End Date: December 2026

**Timeline is subject to change.*

The City of Toronto is planning to improve the streetscaping on Mercer Street. As part of the work, the City will reconstruct the road and sections of sidewalk.

Planned improvements include installation of unit pavers on the roadway, curb extensions, adding layby parking and bollards. The streetscape improvements will provide an enhanced pedestrian environment and a safer roadway for all users and expand the lifespan of the underground infrastructure.

MAP OF WORK AREA

WHAT TO EXPECT BEFORE CONSTRUCTION

- Work crews will mark sidewalks and curbs requiring replacement and the locations of underground utilities, such as gas, water and cable so that the construction work does not interfere with these utilities.
- Affected properties will receive a Construction Notice approximately two weeks before work begins with more information about the work.
- The City will not be responsible for damage to any privately owned items on City property.

	Accessible Accommodation: The City's contractor must ensure safe and accessible walkways and entryways are maintained for everyone during construction. Any temporary access disruptions will be communicated as soon as possible. If you experience a disruption, have a specific access need or related accommodation request, contact the staff person listed below.
	Access to Your Property: The City-hired contractor may need access to the interior and exterior of your home to complete a pre-construction condition survey. Affected properties will receive a request to schedule a time to complete the pre-construction condition survey. Although participation is voluntary, the pre-construction survey results may be useful to confirm claims for potential damage caused by City construction.
	Important information for owners of sprinkler systems / heated driveways and private landscaping features. Property owners should remove items located within City property limits (boulevard) to avoid damage. This includes items such as landscaping (plants and pavers), decorative objects, sprinkler systems or heated driveways. If you have a sprinkler system or heated driveway, please contact the staff person listed below.
