

TORONTO Construction Notice Update #1

August 10, 2026

Priority Sanitary Infrastructure Protection L'Amoreaux Park (L'Amoreaux Sports Complex) (Site 4WHC-LAM) in West Highland Creek

Start Date: January 19, 2026
NEW End Date: August 31, 2026

**Timeline is subject to change.*

The project completion date has been extended because of early delays and storm-related impacts.

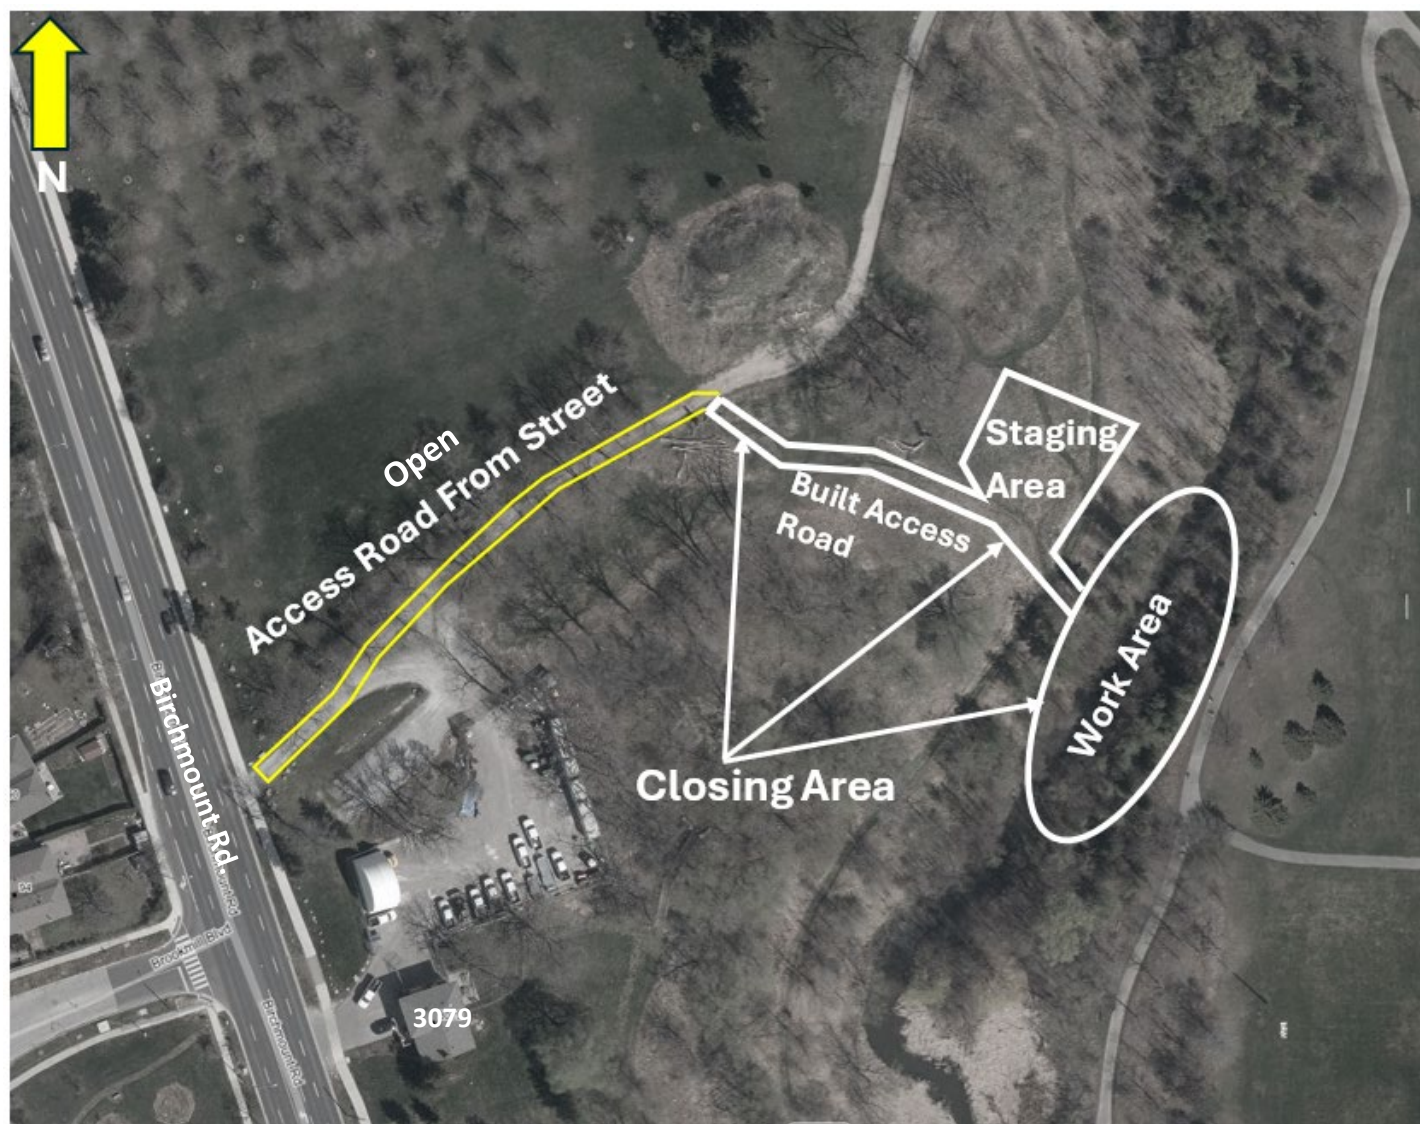

The City of Toronto plans to protect the sanitary sewer infrastructure located at L'Amoreaux Park (L'Amoreaux Sports Complex) (Site 4WHC-LAM) in West Highland Creek, by reinforcing the creek bank and beds with stone, soil and vegetation.

The sanitary sewer is an underground pipe that collects wastewater (sewage) from residential properties, businesses and institutions and delivers it to a wastewater facility for treatment.

Please find a map of the work area below.

This project is part of the Council-approved 2024 Capital Works Program to renew the City's aging sewer infrastructure and will extend the service life by approximately 50 years.

MAP OF WORK AREA

Construction Notice Update #1

WORK DETAILS

In the first few weeks, City of Toronto staff will move equipment on-site and prepare the work area before construction begins.

- Construction is being performed by City of Toronto staff.
- Crews are building an access route to the work area, as well as a temporary creek crossing to access the creek banks. Crews are also reinforcing the creek bank and beds with stone, soil and vegetation.
- Work includes creek restoration with heavy equipment operating in West Highland Creek to protect the sanitary sewers.
- All work will be done according to seasonal planting guidelines (fall or spring) and is being carried out in consultation with Toronto and Region Conservation Authority and the City of Toronto.

	Work Hours: Work will take place from 7 a.m. to 7 p.m., Monday to Friday, with work after hours and on weekends, as required and in accordance with the City's Noise Bylaw. Night work may be required as part of this project. You will be notified in advance of any changes to work hours.
	Construction Noise: You may experience intermittent noise and vibration during construction (from vacuum trucks, power generators, air compressors, etc.). All work will comply with the City of Toronto's Noise Bylaw.
	Park, Trail, Sidewalk and Pedestrian Access: For the safety of workers and trail users, some pedestrian and trail use restrictions will occur. Staff will be onsite to temporarily closing the trail when heavy equipment is crossing the trail. Otherwise, the trail will remain open. The informal trail beside the work area and the work area will be closed for the duration of the work.
	Road Access and Parking: To complete work in a safe manner, there may be some minimal road restrictions and parking spaces when heavy equipment is crossing the trail.
	Tree Removal: In order to complete the necessary work, the City will need to remove and prune trees from public property in the ravine and in the park. A public property tree removal permit has been obtained for this work.
	Restoration: The construction work area will be restored. Staff will replant native trees and restore vegetation with site appropriate landscaping. This will be done as needed during ideal planting seasons only - in the spring (April to June) and fall (September to October) and will be carried out in consultation with Toronto and Region Conservation Authority.
