North Newtonbrook West Streets Plan

School safety zone on Patricia Avenue near Chelmsford Avenue

Person cycling on Lariviere Road in front of Goulding Community Recreation Centre

Map of the North Newtonbrook West Streets Plan project area

In consultation with the local community, the City is developing a Neighbourhood Streets Plan for the northern portion of the Newtonbrook West neighbourhood. The Streets Plan will recommend changes to traffic operations and road design to support safety and mobility for everyone using the streets.

The North Newtonbrook West Streets Plan will investigate five main areas of improvement:

- 1. Road safety for vulnerable road users (e.g., pedestrians, children, older adults and people cycling)
- 2. Motor vehicle speeding
- 3. Non-local traffic
- 4. Supporting transportation options (e.g., transit, walking and cycling)
- 5. Curbside activity (e.g., parking, bus stops and loading zones)

Project Area

The project area is located between Bathurst Street, Steeles Avenue West, Yonge Street and Drewry Avenue.

The City invites residents to learn more about the project and participate in identifying issues, opportunities and ideas for the neighbourhood.

Learn More  Visit the project web page and view information panels that will be presented at the public event. toronto.ca/ NorthNewtonbrookWestStreets	Attend the Public Drop-In Event  View information panels, provide comments, ask questions and speak with the project team. Wednesday, June 10, 2026 6 to 8 p.m. Newtonbrook Secondary School, Cafetorium 155 Hilda Avenue Toronto, ON M2M 1V6	Provide Feedback  Tell us about your transportation issues and ideas using an online interactive map and take a short survey. Submit comments by email, mail or phone. Comment deadline: Tuesday, June 30, 2026
---	---	---

Access to the event location is wheelchair/mobility aid accessible. If you require other disability-related accommodation to participate, please contact us one week before the event.

What is a Neighbourhood Streets Plan?

Neighbourhood Streets Plans serve neighbourhoods where traffic and travel options challenge the safety and mobility of people using the streets. Through the planning process, a team of City staff works with communities to identify local issues and opportunities, collect and analyze traffic and travel demand data, and review relevant City programs and policies. The resulting Streets Plan prioritizes the greatest needs and recommends changes to traffic operations and street designs. Streets Plans consider the needs of all road users and emphasize the safety of vulnerable road users such as seniors, school children, pedestrians and people cycling.

Neighbourhood Streets Plans are subject to approval by the local Community Council. Approved changes are implemented in coordination with several City divisions to achieve efficiencies and minimize disruption from construction and roadwork. The timeline for implementation varies accordingly.

What types of changes are considered?

Streets Plans typically result in street improvements in the short or medium-term (6 months to 5 years), which can be made using temporary, flexible materials like signs, asphalt, paint and bollards. Plans also identify desirable changes which are best accomplished as part of programmed road work, property development or other major city-building projects in the future (typically 5+ years).

The outcomes of each Streets Plan are different based on local conditions and the needs of each neighbourhood. Generally, recommended actions relate to managing motor vehicle speed and volume, and reducing traffic safety conflicts. In every neighbourhood, the planning process is informed by the City's Traffic Calming Guide, Vision Zero Road Safety Plan, Complete Streets Guidelines, Congestion Management Plan, as well as the latest transit service improvement plans advanced in partnership with the Toronto Transit Commission.

How is the community involved?

Public consultation on Neighbourhood Streets Plans typically takes place in two phases. The participation of local residents and interest groups is essential to identify appropriate changes and actions for the neighbourhood. Each phase of consultation typically includes a scheduled community event, online information materials and an online survey for self-guided participation.

Community members may also register to speak (depute) at the Community Council meeting, where the final recommended version of the Neighbourhood Streets Plan is subject to debate and vote.
