Basement Flooding Protection Program Fairbank-Silverthorn Storm Sewer System - Phase 2 Construction on Harvie Avenue, Chudleigh Road and Nairn Avenue

Contract #: 23ECS-MI-03FS

Start Date: March 26, 2026

NEW Expected End Date: June 2027

**Timeline is subject to change.*

This notice is an update to the construction notice for the Harvie Avenue, Chudleigh Road, and Nairn Avenue area. Please visit [Toronto.ca/fairbank](https://toronto.ca/fairbank) to view the previous notices.

The City of Toronto is advancing construction of a new storm sewer system that will collect, store, and move stormwater (rain and melted snow) from the Fairbank-Silverthorn area to Black Creek. This work is part of the City's Basement Flooding Protection Program to help reduce the risk of future basement flooding. Once complete, the new storm sewer system will help to reduce the impact of heavy rainfall and sewer back-ups for more than 4,600 homes in your area.

The City's contractor has completed installation of the new storm sewers on Harvie Avenue, Chudleigh Road and Nairn Avenue and will be returning to complete water service upgrades, restoration, and paving. Once planned water service upgrades related works are completed, road resurfacing and restoration will take place. The works will be done in the following phases:

- **Previous Phases (storm sewers): Completed.**
- **Water Service Phase:** September to November 2026, intermittently.
- **Restoration Phase:** Boulevard restoration & base asphalt restoration work. Tentatively November to December 2026.
- **Final Paving Phase:** Spring to June 2027, weather permitting.

The following traffic restrictions will apply during construction:

- There will be intermittent localized closures during water service upgrades and restoration works.
- A separate **"Final Paving Notice"** will be provided once weather dependent works begins in Spring 2027.

WORK DETAILS

The contractor will:

- Install water service upgrades in the work area
- Restore all work areas
- Resurface the road
- Final paving

Construction Work Area on Chudleigh Avenue, Nairn Avenue and Harvie Avenue

WHAT TO EXPECT DURING CONSTRUCTION

- You may experience dust, noise and other inconveniences. The City will make efforts to reduce the impacts. We appreciate your patience.
- The City will not be responsible for damage to any privately owned items on City property, so please ensure that you remove/arrange for removal of each item prior to construction.

	Work Hours: Work will take place from 7 a.m. to 7 p.m., Monday to Friday, with work after hours and on weekends as required.
	On-Site Communication: There are times when contractors need to communicate with homeowners about what is happening on-site. This could be about driveway access, water shut offs, pre-construction inspections, and site restoration work (landscaping, installing pavers etc.). Contractor's staff will be identifiable by their high-visibility company branded clothing. If you need to speak with staff on the construction site, please ask for the Site Inspector.

	Important information for owners of sprinkler systems/heated driveways and private landscaping features. Property owners should remove items located within City property limits (boulevard) to avoid damage. This includes items such as landscaping (plants and pavers), decorative objects, sprinkler systems or heated driveways. For details on removal of such items, please contact the Field Ambassador listed below.
	Road Closure: During construction, localized closures of the road will be required to construct water service upgrades. Vehicles left unattended will be subject to “friendly towing.” Access for emergency vehicles will be maintained at all times. Sidewalk Access: Pedestrian access to properties will be maintained at all times. Driveway Access: Your driveway may be affected during the construction. Please note that you will be notified with a separate notice that specifies the duration of the driveway impact if applicable. Street Parking: Street parking may be affected. Arrangements for alternate streets should be considered.
	Traffic Management: Road users should expect delays and increased traffic on nearby side streets. When driving, please be mindful of vulnerable road users.
	Parking Violation Notices: <u>Please ensure you park in a legal parking spot at all times.</u> If parking enforcement is called to a street, officers must issue a yellow parking violation notice (ticket) to vehicles in violation of parking by-laws. If you receive a yellow notice during this construction work, please do one of the following within 15 days of the notice date in order to avoid additional fines or records being kept of non-payment: 1. Contact the Field Ambassador listed below, and provide a photo of your ticket and ticket number, along with your contact information. or 2. Pay the parking violation (follow instructions on the back of the notice) or 3. File a Parking Violation Dispute online, by mail or in person (follow instructions on the back of the violation notice). As part of the dispute process, you may include the construction notice and/or other documentation related to parking impacts resulting from construction If you do not have a copy of the Construction Notice, please contact 311 to request a copy. Please note: Violation notices cannot be cancelled if vehicles are parked in illegal parking spots (i.e., in front of a fire hydrant or in No Parking zones). In an effort to reduce ticketing due to construction, please exercise patience with neighbours who are experiencing construction impacts and may need to temporarily park on your street.

	Water Service Disruptions: From time-to-time, the water supply to your property will be shut-off to complete construction; the contractor will provide notice at least 24-hours in advance. Throughout the work, it is recommended that you temporarily disconnect any water treatment systems (i.e. softeners or filters), water-cooled air conditioners or similar plumbing fixtures. Automatic lawn sprinkler systems may also be affected; therefore, you may need to water manually. In the event you did not receive advance notice, the City may have needed to use an emergency water shut off to complete work.
	Substandard Water Service Replacement: Please take the time to read the attached fact sheet carefully as it contains important information on lead in drinking water and how to prepare for replacement. If you want to replace the private portion-of the water service pipe, the City of Toronto recommends that you obtain several quotes before selecting a contractor. PLEASE NOTE: The City is not able to get involved in any contract to have work done on private property. Property owners are responsible for ensuring contractors do not interfere with the work being done on City property. Learn more at www.toronto.ca/leadpipes.
	Accessibility Accommodation: The City's contractor must ensure that safe and accessible walkways and entryways are maintained for everyone during construction. Any temporary access disruptions will be communicated as soon as possible. If you experience a disruption, have a specific access need or related accommodation request, contact the Field Ambassador listed below.
	Garbage and Recycling: Please follow your normal routine. If required, the contractor will move bins to an appropriate location and return them. Please ensure that your bins are labelled with your address.
	Restoration: The construction work area will be restored with sod, concrete and/or asphalt where required. Full restoration will be completed by the contractor.
