Electronic Waste

Electronic waste should **never** be put in the garbage or recycling. The City collects electronic waste to ensure it is kept out of landfill and recycled and/or disposed of safely.

Accepted items include:

Cameras

Televisions & monitors

Stereos & radios

Smart watches

Printers & ink/toner cartridges

Home assistant devices

Headsets & microphones

Portable computers (laptop, tablet) & desktops

Security devices

Mice, keyboards, webcams, etc.

CD, VCR, DVD, Blu-ray, PVR players/ recorders & remotes

Smartphones & corded phones

Electronic musical instruments

Video game consoles

For more accepted items, visit **toronto.ca/ewaste**

! Working electronics should be donated when possible.

Proper disposal:

1. Protect your privacy. Clear all personal information from computers, cell phones and other electronics prior to collection/ drop-off/donation (i.e. wipe your drives, clear your SIM cards).

2. If the item has removable batteries, remove and dispose of them as household hazardous waste. For disposal options, visit **toronto.ca/hhw.**

3. Bring electronic waste to your building's designated drop-off area, a City of Toronto Drop-Off Depot or a Community Environment Day.

08-2026

Note: Electronic items are equipment with a primary purpose of collecting, storing, processing or communicating information. Not all items with an electrical cord (e.g. small kitchen appliances, power tools) are collected as electronic waste.
