TORONTO

Emergency Closure

October 28, 2026

Emergency Bridge Closure
Meadowvale Road Bridge over Little Rouge River

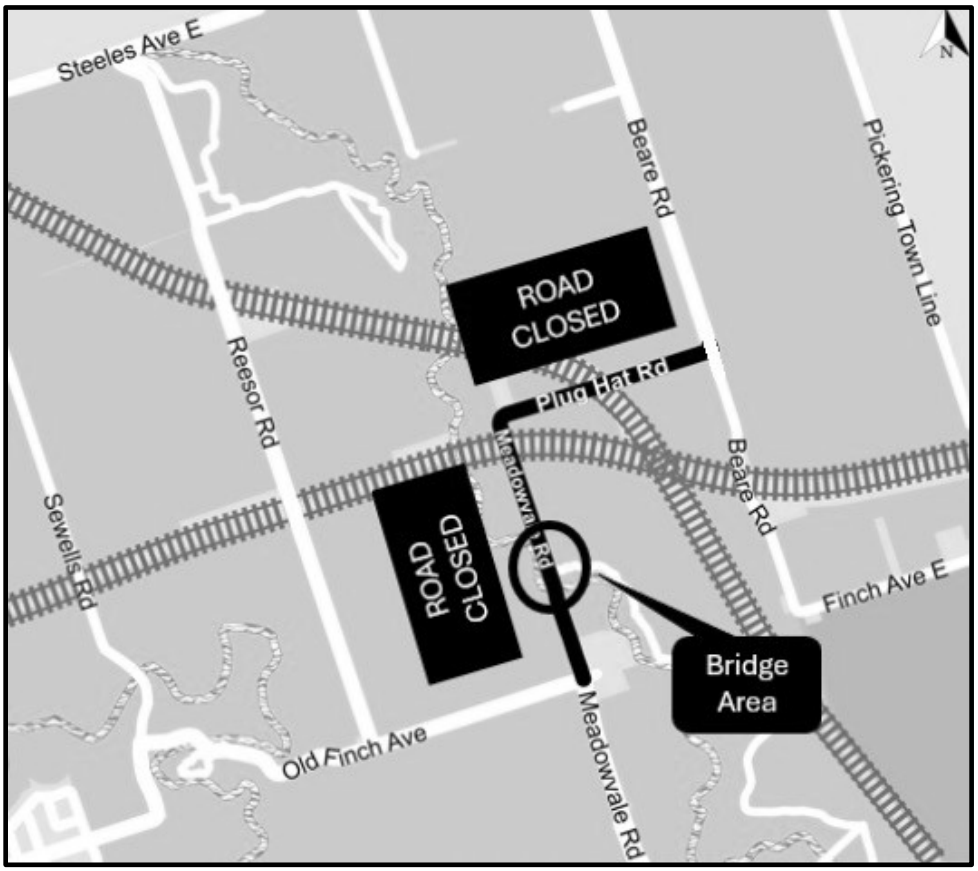

Closure Date: October 27, 2026

Due to safety concerns identified in a recent inspection, the City of Toronto has closed the Meadowvale Road bridge over Little Rouge River to all motorized and vehicular traffic. The bridge requires immediate attention and is not adequate for continued motorized vehicular use in its current state. During the bridge closure, Meadowvale Road, north of Old Finch Avenue and Plug Hat Road will be closed to motorized vehicles. The bridge will remain open to pedestrians and cyclists.

Staff are working to determine next steps. Updates will be shared with the community as more information becomes available.

We understand this kind of work can be disruptive. Thank you for your patience as we prioritize the safety of all Meadowvale Road Bridge users.
