October 27, 2026

Watermain Replacement and Road Resurfacing on University Avenue from College Street to Armoury Street – Phase 1

Contract: 24ECS-LU-06SU
Start Date: September 21, 2026 | End Date: Spring 2027
**Timeline is subject to change.*

This notice provides an update on the City of Toronto's plans to replace the watermain and the City-owned portion of substandard water services on the east side of University Avenue from College Street to Armoury Street.

From **Wednesday, November 4 to Wednesday, November 25, 2026**, the City's contractor will excavate and install a new 600 mm watermain at the intersection of University Avenue and Gerrard Street. **Southbound traffic from University Avenue will not be permitted to turn left onto Gerrard Street. Westbound traffic from Gerrard Street will not be permitted to turn left onto University Avenue. Traffic must turn right.** These traffic restrictions will remain in place continuously for the duration of the work including overnight and weekends.

Traffic delays are expected, and motorists, cyclists and pedestrians are advised to use alternate routes where possible. Work schedules may change due to weather or unforeseen underground conditions.

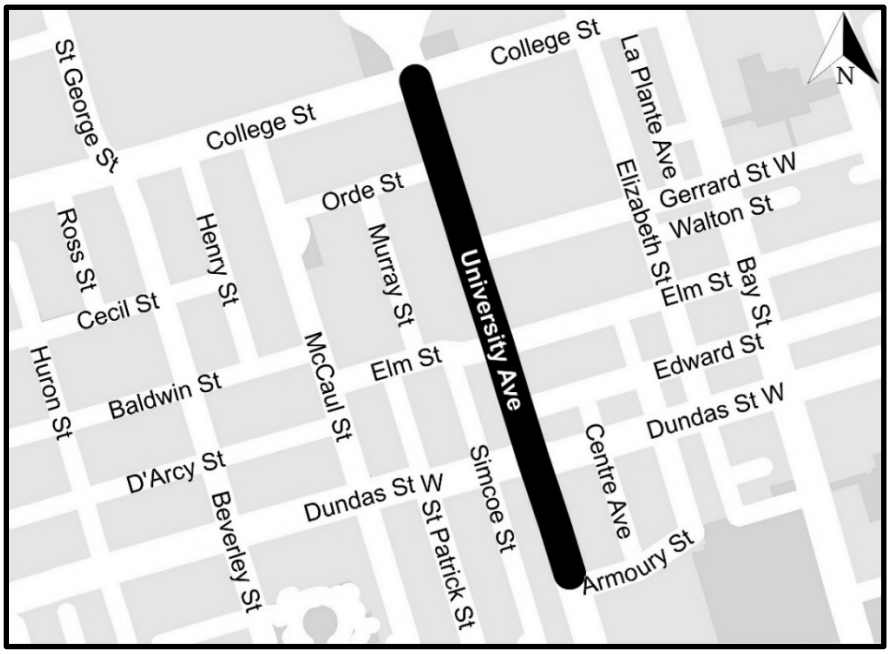

Traffic impacts associated with the future installation of the 300 mm watermain will be provided at a later date.

This project is part of the Council-approved 2024 Capital Works Program to renew our aging infrastructure, improve water distribution and reduce the risk of watermain breaks.

Please share this notice with the property owner or tenants and post in a common area

MAP OF WORK AREA

WORK DETAILS

The City's contractor will:

- Excavate the road and dig a trench to install the watermain.
- Temporarily restore the road.

WHAT TO EXPECT DURING CONSTRUCTION

- You may experience dust, noise and other inconveniences. The City will make efforts to reduce the impacts. We appreciate your patience.

	Work Hours: Work will take place between 7 a.m. and 7 p.m., Monday to Saturday. The contractor on this project may use extended work hours to minimize traffic disruption and to shorten the project duration.
	Road and Sidewalk Access: In order to complete the work in a safe manner, there will be road and sidewalk restrictions within the work zone. Access for emergency vehicles will be maintained at all times. **Driveway Access:** The contractor will notify you of any temporary restrictions to your driveway access. If your property has two entrances, one entrance will be kept open at all times.

Please share this notice with the property owner or tenants and post in a common area

Construction Impact #4

	**Traffic Management**: Road users should expect delays and increased traffic on nearby streets. When driving, please be mindful of vulnerable road users such as pedestrians and cyclists. Motorists are reminded to share the lane with cyclists, who have the right to utilize the full lane when riding with mixed traffic. When passing a cyclist, the Highway Traffic Act requires motorists maintain a minimum distance of one metre between their vehicle and the cyclist. Northbound traffic on University Avenue will be reduced to one lane. Southbound traffic will have all lanes open. **Southbound traffic from University Avenue will not be permitted to turn left onto Gerrard Street.** **Westbound traffic from Gerrard Street will not be permitted to turn left onto University Avenue or proceed straight through the intersection. Traffic must turn right.**
	**Pedestrians:** The work may require temporary sidewalk restrictions, however any necessary sidewalk closures will alternate in each direction to ensure pedestrian access is maintained during construction. At each intersection, at least one crosswalk will remain open for east-west pedestrian travel and at least one crosswalk will remain open for north-south pedestrian travel.
	**Cyclists:** To accommodate northbound cyclists, the existing southbound cycle track on the west side will be modified to allow bi-directional travel from Armoury Street to College Street.
	**Accessible Accommodation:** The City's contractor must ensure safe and accessible walkways and entryways are maintained for everyone during construction. Any temporary access disruptions will be communicated as soon as possible. If you experience a disruption, have a specific access need or related accommodation request, contact the **Field Ambassador** listed below.
