TORONTO

Pre-Construction Notice

November 11, 2026

Road Resurfacing and Intersection Improvements on Coronation Drive from Manse Road to Chemical Court

Contract: 24ECS-LU-02SM
Start Date: Summer 2027
End Date: Fall 2027
**Timeline is subject to change.*

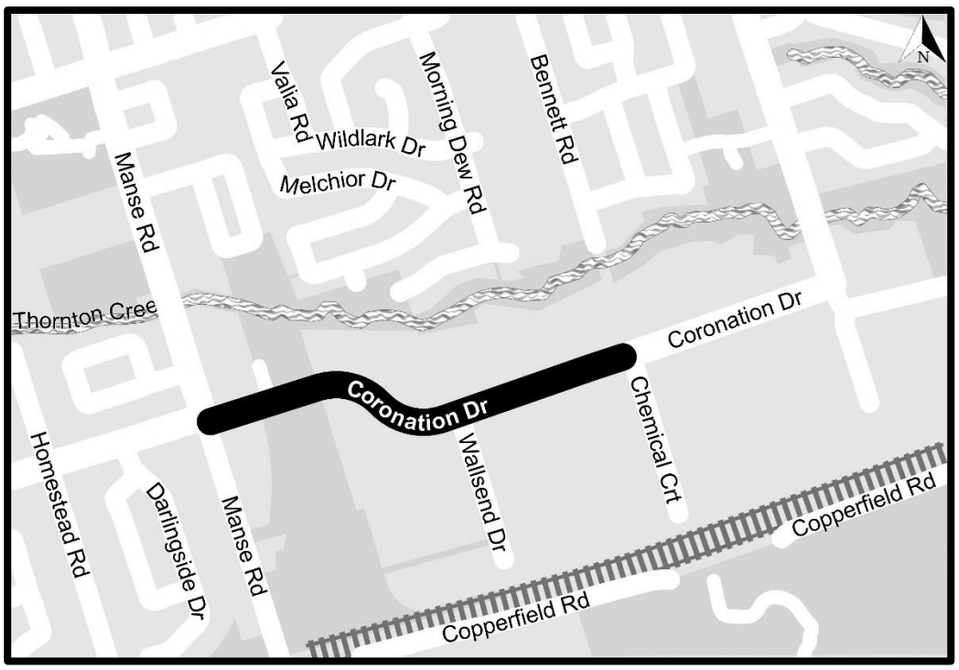

The City of Toronto plans to resurface **Coronation Drive** from **Manse Road** to **Chemical Court**. Our pavement rehabilitation strategy is to mill and resurface the asphalt surface to return the infrastructure to a state of good repair.

As Coronation Drive currently features existing pedestrian infrastructure, this project will include sidewalk replacements to address faulty sections. Additionally, Coronation Drive and Manse Road intersection will undergo significant safety improvements aligned with Vision Zero objectives to enhance visibility and protection for all road users.

This project will include **overnight work** to minimize traffic disruptions. Additional details and specific dates will be provided closer to the start of construction.

This project is part of the Council-approved 2026-2027 Capital Works Program to renew the City's aging infrastructure.

MAP OF WORK AREA

WHAT TO EXPECT BEFORE CONSTRUCTION

- Work crews will mark sidewalks and curbs requiring replacement and the locations of underground utilities, such as gas, water and cable so that the construction work does not interfere with these utilities.
- Affected properties will receive a Construction Notice approximately two weeks before work begins with more information about the work.
- The City will not be responsible for damage to any privately owned items on City property.

Please share this notice with the property owner or tenants and post in a common area

Pre-Construction Notice

	Accessible Accommodation: The City's contractor must ensure safe and accessible walkways and entryways are maintained for everyone during construction. Any temporary access disruptions will be communicated as soon as possible. If you experience a disruption, have a specific access need or related accommodation request, contact the **Field Ambassador** listed below.
	Access to Your Home: The City-hired contractor may need access to the interior and exterior of your home to complete a pre-construction condition survey (inspection). Affected properties will receive a request to schedule a time to complete the pre-construction condition survey. Although participation is voluntary, the pre-construction survey results may be useful to confirm claims for potential damage caused by City construction.
	**Important information for owners of sprinkler systems / heated driveways and private landscaping features.** Property owners should remove items located within City property limits (boulevard) to avoid damage. This includes items such as landscaping (plants and pavers), decorative objects, sprinkler systems, or heated driveways. If you have a sprinkler system or heated driveway, please contact the **Field Ambassador** listed below.
